New possibility of MOVPE-growth in GaN and InN: polarization in GaN and nitrogen-incorporation in InN

Two-step epitaxial lateral overgrowth of a-plane GaN by MOCVD

Low dislocation density GaN grown by MOCVD with SiN\textsubscript{x} nanonetwork

Growth and polarity control of GaN and AlN on carbon-face SiC by metalorganic vapor phase epitaxy

Enhanced luminescence from Al\textsubscript{x}Ga\textsubscript{1-x}N/Al\textsubscript{y}Ga\textsubscript{1-y}N quantum wells grown by gas source molecular beam epitaxy with ammonia

Narrow-width photoluminescence spectra of InGaN quantum wells grown on GaN (0001) substrates with misorientation toward [1100] direction

AFM and CAFM studies of ELO GaN films

Magneto-transport properties of MOVPE-grown Al\textsubscript{x}Ga\textsubscript{1-x}N/Al\textsubscript{y}Ga\textsubscript{1-y}N/GaN heterostructures with high-mobility two-dimensional electron gas

Investigation of current voltage characteristics of n-GaN/l-Al\textsubscript{x}Ga\textsubscript{1-x}N/n-GaN structures

Characterization of the carrier dynamics and interface-state charge fluctuations in quaternary AlInGaN multiple quantum well heterostructures

Optical properties of Berthelot-type behaviors in quaternary AlInGaN multiple quantum well heterostructures

Characterization of the carrier localization confinement for InGaN/GaN multiple quantum well heterostructures with hydrogen-flow treatments

Wide bandgap UV photodetectors: a short review of devices and applications

Spontaneous polarizations, electrical properties, and phononic properties of GaN nanostructures and systems

Summary of deep level defect characteristics in GaN and AlGaN

Interplay of Ga vacancies, C impurities, and yellow luminescence in GaN

Point defect reduction in GaN layers grown with the aid of SiN\textsubscript{x} nanonet by metalorganic chemical vapor deposition

Quantum 1/f noise in GaN FETs, HFETs, MODFETs, and their oscillators' phase noise

Accumulation of hot phonons in GaN and related structures

Subpicosecond time-resolved Raman studies of LO phonons in GaN

AlGaN/GaN MODFET regrown by rf-MBE on MOCVD templates

AlGaN/GaN AAOS transistors using crystalline ZrO\textsubscript{2} as gate dielectric

InGaN/GaN nanocolumn LEDs emitting from blue to red

Nitride-based light-emitting diodes with p-AlInGaN surface layers prepared at various temperatures

AlGaN-based deep ultraviolet light emitting diodes with reflection layer

Recent achievements of AlInGaN based laser diodes in blue and green wavelength

Long lifetime cw InGaN laser diodes by molecular beam epitaxy

Degradation studies of InGaAlN heterostructure laser diodes using a Kelvin Force Microscope

The influence of alloy disorder and hydrostatic pressure on electrical and optical properties of in-rich InGaAlN compounds

Defect studies in HVPE GaN by positron annihilation spectroscopy
Lanthanide impurity level location in GaN, AlN, and ZnO
AlGaN/GaN field-plate FETs for microwave power applications
Insulator engineering in GaN-based MIS HFETs
Thermal analysis of AlGaN/GaN HFETs using electro-thermal simulation and micro-Raman spectroscopy
Epitaxial growth and characterization of AlGaN/GaN HEMT devices on SiC substrates for RF applications
TM-mode losing and anisotropic polarization properties of AlGaN multiple quantum well lasers in deep-ultraviolet spectral region
Comparison of optical properties of InGaN/GaN/AlGaN laser structures grown by MOVPE and MBE
Progress in etched facet technology for GaN and blue lasers
High quality UV AlGaN/AlGaN distributed Bragg reflectors and microcavities
High reflectivity ultraviolet distributed Bragg reflector based on AlGaN/AlGaN multilayer
Structural characterization of ill-nitrides using electron microscopy
Nanoheteroepitaxy of GaN on columnar SiC substrates by metalorganic chemical vapor deposition
Characterization of transient behavior of AlGaN/GaN HEMTs
Charge trapping on defects in AlGaN/GaN field effect transistors
Analytical model, simulation, and parameter extraction of AlGaN/GaN HEMT for microwave circuit applications
1/f noise in the dark current of GaN QWIPs
Light extraction analysis for GaN-based LEDs
Convergence of optical spectroscopic system for characterization of InGaN/GaN multi-quantum well light-emitting diodes
Confocal scanning electroluminescence spectro-microscope for multidimensional light-emitting property analysis
