Partially persistent dynamic sets for history-sensitive heuristics
A practical perfect hashing algorithm
Computational evaluation of hot queues
Nearest neighbor search for data compression
Experimental evaluation of disk-based data structures for nearest neighbor searching
Analysis of approximate nearest neighbor searching with clustered point sets
Approximate nearest neighbor search using the extended general space-filling curves heuristic
Locally lifting the curse of dimensionality for nearest neighbor search
The role of experiment in the theory of algorithms
Towards a discipline of experimental algorithmics
A theoretician's guide to the experimental analysis of algorithms
A bibliography of algorithm experimentation
