Fundamentals
Conceptual Bridge Design
Bridge Aesthetics -- Basics
Bridge Aesthetics -- Structural Art
Planning of Major Fixed Links
Design Philosophies for Highway Bridges
Highway Bridge Loads and Load Distribution
Structural Theory
Structural Modeling
Superstructure Design
Reinforced Concrete Bridges
Prestressed Concrete Bridges
Segmental Concrete Bridges
Steel-Concrete Composite I-Girder Bridges
Steel-Concrete Composite Box-Girder Bridges
Orthotropic Deck Bridges
Horizontally Curved Bridges
Highway Truss Bridges
Arch Bridges
Suspension Bridges
Cable-Stayed Bridges
Timber Bridges
Movable Bridges
Floating Bridges
Railroad Bridges
Bridge Decks and Approach Slabs
Expansion Joints
Substructure Design
Bearings
Piers and Columns
Towers
Abutments and Retaining Structures
Geotechnical Considerations
Shallow Foundations
Deep Foundations
Seismic Design
Geotechnical Earthquake Considerations
Earthquake Damage to Bridges
Dynamic Analysis
Nonlinear Analysis of Bridge Structures
Seismic Design Philosophies and Performance-Based Design Criteria
