On Theory in Operations Management
Building Operations Management Theory through Case and Field Research
Competing through Manufacturing and the New Manufacturing Paradigm
Is Manufacturing Strategy Pass[ac]e?
Manufacturing Strategy
At the Intersection of Two Paradigm Shifts
Emerging Logistics Strategies
Blueprints for the Next Century
Exploring the Linkage between Investment in Manufacturing and Environmental Technologies
Resource-Based Competition and the New Operations Strategy
Service Operations Management
Return to Roots
The Balanced Scorecard
Measures That Drive Performance
Manufacturing in the 1990s - Productivity, Flexibility and Innovation
Time Pacing
Competing in Markets That Won't Stand Still
Mass Customization
Implementing the Emerging Paradigm for Competitive Advantage
The Evolution of Production Models
Is a New Paradigm Emerging?
Aligning Marketing and Manufacturing Strategies with the Market
The Focused Factory
Focused Factories? Physician-Owned Specialty Facilities
Performance Trade-offs in Manufacturing Plants
Design of Operations Systems
Integrated Design and New Product Success
From Project to Process Management
An Empirically-Based Framework for Analyzing Product Development Time
The Operations Process - Choice and Trade-offs
A Framework for Strategic Service Management
Breaking the Functional Mindset in Process Organizations
Research Opportunities in Service Process Design
Total Quality Management
Empirical, Conceptual and Practical Issues
The Relationship between Total Quality Management Practices and Operational Performance
Manufacturing Flexibility
A Literature Review
The Modular Consortium in a New VW Truck Plant in Brazil
Strategic, Tactical and Operational Decisions in Multi-National Logistics Networks

A Review and Discussion of Modelling Issues
Controversies and Contradictions in Statistical Processes Control
The Long and Winding Road
The Evolution of Quality Management
