Contributors
Foreword
Preface
Reaching for the Impossible: The Quest for Tissue Replacement
Immunology
Immunobiology of Graft Rejection
Chronic Rejection
Histocompatibility Systems
Tolerance
Immunosuppression
Molecular and Clinical Therapeutics of Cyclosporine in Transplantation
Azathioprine
Steroids and Transplantation
Tacrolimus
Mycephenolate Mofetil: Experimental and Clinical Experience
New Small Molecule Immunosuppressive Agents
Principles of Action of Biologic Immunosuppressants
Biologic Immunosuppressive Agents
Use of Irradiation and Photopheresis for Immunosuppression in Transplantation
Organ Procurement
Donor Selection and Management
Organ Preservation
Organ-Specific Transplantation
Renal Transplantation
Renal Transplantation in Children: Current Practices
Liver Transplantation
Liver Transplantation in Children
Pancreas Transplantation
Intestinal and Multivisceral Transplantation
Cardiac Transplantation
Heart Transplantation in Children
Lung Transplantation
Heart-Lung Transplantation
Bone Marrow Transplantation
Systemic Consideration of Organ Transplantation
Pulmonary Considerations of Organ Transplantation
Gastroenterological Considerations of Organ Transplantation
Cardiovascular Considerations of Organ Transplantation
Endocrine and Metabolic Considerations
Hematologic Complications of Organ Transplantation
Neurological Considerations of Organ Transplantation
Psychiatric Considerations of Organ Transplantation
Renal Considerations of Organ Transplantation
Infection in the Organ Transplant Recipient
Neoplastic Complications of Organ Transplantation
The Future of Transplantation
Bone Marrow Conditioning
Gene Transfer
Xenotransplantation
Understanding Organ Procurement and the Transplant Bureaucracy
Transplantation and Society
