High Temperature Design Procedures - Developments in Europe Since 1986 p. 1
Design Criteria for Multiaxial Creep-Fatigue p. 13
Creep Strength and Creep Damage Considerations for Life Cycle Engineering p. 23
The Mechanical and Microstructural Stability of Austenitic Stainless Steels Strengthened by MC-Forming Elements p. 33
Dependence of Irradiation Creep of Zircaloy-2 at 340 K on Microstructure p. 43
Effect of Microstructural Parameters on the Creep Rupture Properties of Nickel-Base Superalloys p. 51
Effects of Grain Size on the Transition Behavior of an Al-Mg Solid Solution Alloy in the Power Law Creep Regime p. 61
Creep Rupture Properties and Microstructures of a New Ferritic W Containing Steel p. 69
The Use of Miniature Specimen for Assessment of Residual Life by Temperature-Accelerated Creep Test p. 75
Empirical Evaluation of Tensile Creep and Creep Rupture in a HIPed Silicon Nitride p. 81
Microstructural Effects on the Tensile Creep of Silicon Nitride p. 91
Study of Creep Crack Propagation Behavior of a Ni-Base Superalloy p. 97
Creep Behavior of Hastelloy XR2 at Very High Temperature p. 101
Transient Creep Deformation of a Single Crystal Nickel Base Superalloy After a Step Decrease in Load p. 111
Effect of Fabrication Processes on the Creep Behavior of 9-12% Chromium Steels p. 117
Creep of Cold Deformed AISI 347 Stainless Steel p. 127
Tensile and Creep Properties of 3-D Braided PEEK/AS4 Graphite Composites p. 135
Flexural Creep/Crack Rupture Testing of Thermoset/Thermoplastic Composites p. 143
High Temperature Deformation and Fracture Mechanisms in Monolithic and Particulate Reinforced Nickel Aluminide Processed by Spray Atomization and Co-Deposition p. 151
A Model for Primary, Secondary and Tertiary Creep Rates p. 163
An Assessment of a Ductility Exhaustion Model for Predicting Mixed-Mode Creep Crack Growth Rates and Directions p. 171
A Creep Constitutive Model for Anisotropic Hardening Metals p. 177
Evaluation of Shake Down Condition in Cyclic Elastic Follow-Up Tests with Simplified Inelastic Analyses p. 187
Creep Deflection Analysis of a Gas Turbine Combustion Transition Piece p. 195
Determination of Piping Acceptance Requirements Based on State-of-the-Art Creep Crack Growth Methodology p. 203
Crack Growth Assessments at High Temperature p. 209
Notch Geometry and Size Effects at Elevated Temperatures p. 217
Practical Approach to J-Integral Estimation p. 227
Damage Assessment and Integrity in High Temperature Plant p. 235
An Engineering Evaluation of Service Degraded 316N Main Steam Piping Weldments p. 245
Oxidation Cracking and Residual Creep Life of an Incoloy 800H Bottom Manifold in a Steam Reformer at 800 [degree]C p. 257
Creep Analysis of Header Using Typical Load Cycles p. 265
Effect of Vanadium Addition on Degradation of High Temperature Service in 12Cr Ferritic Steels p. 271

Creep Cavity Growth in Cr-Mo-V Forged Steel for Steam Turbine Rotor p. 281

Determination of Creep Damage in Steels p. 287

Creep Crack Growth Behavior of Ni-26Cr-17W-0.5Mo Alloy in Air and Helium Gas Environment at 1273 K p. 297

Creep Crack Growth in Hot Corrosion p. 305

Assessment of the High Temperature Performance of Steel Tubing Through the Understanding and Application of Damage Mechanisms p. 315

Failure Analysis of a Set of 1CrMoV Studs from a Steam Turbine and Techniques for Its Assessment p. 321

Nonproportional Multiaxial Low Cycle Fatigue Using Cruciform Specimen at Elevated Temperature p. 331

Hold Time, Strain Rate and Environmental Effects on Near Eutectic Sn-Pb Solder Under Conditions of Thermomechanical Fatigue p. 341

A New Prediction Method of Fatigue-Creep Interaction Behavior from a Tensile Total Strain Energy Viewpoint for High Strength Superalloy p. 351

The Influence of Creep on the Fatigue Life of Nickel Base Superalloys p. 359

Stochastic Nature on Initiation and Early Growth of Intergranular Creep-Fatigue Cracking p. 369

Near-Threshold Fatigue Crack Growth Behavior at High Temperatures p. 379

Development of a New 0.1C-11Cr-2W-0.4Mo-1Cu Steel for Large Diameter and Thick Wall Pipe for Boilers p. 389

Effects of Post-Weld Heat-Treatment on Creep Behavior of 2.25Cr-1Mo Ferritic Steel Base, Weld Metal and Weldments p. 399

An Approach to Prolonging the Creep Rupture Life of Dissimilar Metal Welds p. 409

Behavior of 2.25Cr-1Mo Base Material and (Repair) Weldments at High Temperature p. 417

Creep-Fatigue Assessment of a Welded Steel Component p. 423

Creep Crack Initiation and Growth at Natural Defects in Heavy Section Forgings p. 431

Development of High Strength Ferritic Heat Resistant Steels p. 441

A CDM Motivated Safety Factor for Creeping Structures in Plane Stress Conditions p. 447

Dutch Developments in Design and Behavior of Creep Loaded Structures p. 453

Lifetime Evaluation of Creeping Structures p. 461

An Expert System in the Domain of Life Assessment of High Temperature Power Plant Components p. 471

Application of Creep Swelling Data in Life Assessment of High Temperature Piping p. 481

Study on Remaining Life of 12CrMo, 15CrMo Steam Mains Operating Beyond Design Life - Effected by Creep-Fatigue Interaction p. 491

A New Method for Predicting the Life of Furnace Tube Operated at High Temperature p. 503

Creep-Life Prediction of Thin-Walled Zirconium Alloy Tubings p. 513

Development of Constitutive Relations for Creep of Composites Using an Indentation Technique p. 521

Application of Quantitative Fractography to Creep Studies p. 525

Mechanism of High Temperature Brittle Intergranular Cracking in High Strength Nickel Alloys p. 531
Creep Behavior of a Tungsten-3.6w/o Rhenium-0.33w/o Zirconium Carbide at Ultrahigh Temperatures p. 539

Creep, Cyclic Creep and Fatigue of a Rotor Steel at Elevated Temperature p. 545

Creep Damage of Hastelloy XR at Very High Temperatures in Simulated Helium Gas p. 551

Creep Collapse of Heat Transfer Tubes Under External Pressure p. 557

Fractography of Notched Specimens of Wrought Superalloys Under Static Creep and Cyclic Creep Conditions p. 571

Creep Deformation and Fracture Behavior of a Type 316LN Stainless Steel p. 577

Validation of a Viscoplastic Model in Creep Regime p. 587

High-Temperature Creep Phenomena and Their Associated Superplasticity p. 593

Influence of Orientation on the Fatigue and Creep Behavior of a Single Crystal Nickel Base Superalloy p. 603

Mechanistic Creep Modeling for Weldment Life Prediction p. 609

Effect of Calcium Treatment, Sulfur Content, and Specimen Orientation on Creep Resistance of AISI 4140 Steel p. 617
