Development and Validation of the Sport Competition Anxiety Test

Anxiety in Sport

Competitive Anxiety Terminology

Competitive Anxiety Model

Glossary of Competitive Anxiety Terms

Summary

Competitive Trait Anxiety

The Interactional Paradigm

General Anxiety Versus Situation-Specific Anxiety

A Trait-State Theory of Anxiety

The Competitive Process

Applying the Competitive Process Model to Competitive Anxiety

Summary

Development of SCAT

Planning the Inventory

Item Selection

Reliability

Internal Consistency

Validity

Summary

Construct Validation of SCAT

Construct Validation Model

Original Construct Validation Research

Summary

Using SCAT and SCAT Norms

Administration of SCAT

Scoring SCAT

SCAT Norms

Sport Competition Anxiety Test: Literature Review, Current Status, and Future Directions

Research Using SCAT: Review and Analysis

Additional Psychometric Research

An Expanded Model of Competitive Anxiety

Relationship Between Competitive A-Trait and Other Intrapersonal Factors

Perception of Threat: A Result of Competitive A-Trait and Situational Factors

Influence of Perception of Threat on State Responses

Competitive A-Trait and Motor Performance

Influence of Competitive A-Trait and Performance on Performance Outcomes

Influence of Performance Outcomes on Competitive A-Trait Intervention

Coaches’ Ability to Predict Competitive A-Trait and A-State in Athletes

Summary

SCAT: Conclusions, Problems, and Future Directions

Conclusions Drawn From Research Using SCAT
Problems in SCAT Research
Future Directions for SCAT Research
Summary
Development and Validation of the Competitive State Anxiety Inventory-2
Rainer Martens, Damon Burton
A Multidimensional Theory of Competitive State Anxiety
Cognitive and Somatic A-State Defined
Significance of the Cognitive-Somatic Distinction
Independence of Cognitive and Somatic A-State
Summary
Development of the CSAI-2
Development and Analysis of Form A
Form B
Form C
Form D
Reliability
Concurrent Validity
Independence of the CSAI-2 Subscales
Social Desirability and the Development of Form E
Summary
Construct Validation of the CSAI-2
Variables Influencing Competitive A-State
Changes in Competitive A-State as the Time to Compete Nears
The Relationship Between Performance and the CSAI-2 Subscales
The Relationship Between CSAI-2 Subscales and a More Sensitive
Intraindividual Performance Measure
Summary
Using the CSAI-2 and CSAI-2 Norms
Administration of the CSAI-2
The Inventory
Scoring the CSAI-2
CSAI-2 Norms
Competitive State Anxiety Inventory-2: Literature Review, Current Status, and
Future Directions
Research Using the CSAI-2: Review and Analysis
Relationships Between CSAI-2 Components and Other Intrapersonal Factors
Interrelationships Between CSAI-2 Components
Temporal Changes in CSAI-2 Components
Antecedents of CSAI-2 Components
Relationship Between CSAI-2 Components and Motor Performance Effect of Intervention
on the CSAI-2 Components
