Disorders of Bilirubin Metabolism
The Porphyrias
Heme and Bile Pigment Metabolism
Copper Metabolism and the Liver
Copper and Zinc
Liver and Iron
The Porphyrias
Liver in Relation to Water-Soluble Vitamins
Heme Biosynthesis, the Porphyrias, and the Liver
Bile Secretion
Copper Metabolism and the Liver
Genetic Defects of Canalicular Transport
The Biology of the Bile Canaliculus
Hormonal Regulation of Bile Secretion
Conjugate Export Pumps of the Multidrug Resistance Protein (MRP) Family in Liver
Nucleotide Transport and Regulation of Bile Formation
Enterrohepatic Circulation
Bile Flow
Hormonal Regulation of Bile Secretion
Bile Acids
The Pathobiology of Biliary Epithelia
Enterrohepatic Circulation
Conjugate Export Pumps of the Multidrug Resistance Protein (MRP) Family in Liver
Genetic Defects of Canalicular Transport
Hormonal Regulation of Bile Secretion
Nucleotide Transport and Regulation of Bile Formation
The Pathobiology of Biliary Epithelia
Sinusoidal Cells
Endothelial and Pit Cells
Hepatic Stellate Cells: Morphology, Function, and Regulation
Kupffer and Sinusoidal Endothelial Cells
Integrins
Cell-Extracellular Matrix Interactions
Integrins
Extracellular Matrix
The Extracellular Matrix of the Liver
Extracellular Matrix
Role of Inositol Trisphosphate and Diacylglycerol in the Regulation of Liver Function
Synthesis of and Signaling Through D-3 Phosphoinositides
Insulin and Other Growth Factors
Insulin, Insulin-Like Growth Factors and Their Receptors
Cyclic AMP Signaling in the Liver: Coupling Transcription to Physiology and Proliferation
Ca\(^{2+}\) Signaling in the Liver
Nitric Oxide in the Liver
Interleukin-6 Signaling During the Acute-Phase Response of the Liver
Leukotrienes and Other Eicosanoids in Liver Pathophysiology
Innate Immune Sensing and the Toll-Like Receptors p. 581
Liver Regeneration p. 591
Liver Regeneration
Hepatocyte Growth Factor: Its Role in Hepatic Growth and Pathobiology p. 611
The Organ
Hepatic Microvascular System
Flow, Cell Entry, Metabolic Disposal, and Product Formation in the Liver
Relation to Other Organs
Hepatic Encephalopathy p. 633
Alterations of the Kidney in Liver Disease p. 649
Kidney in Liver Disease
Interaction of Liver, Muscle, and Adipose Tissue in the Regulation of Metabolism in Response to Nutritional and Other Factors
Hypothalamic-Pituitary-Liver Axis: Growth Hormone Controls Liver Sex
Vitamin K-Dependent Blood Coagulation Proteins
Hemopoietic Functions of the Liver
Hepatobiliary Influences on the Skeletal System
Molecular Aspects of Aspects of Autoimmune Liver Disease
Pathobiologic Analysis
Molecular Pathophysiology of Membrane Transport Function in Cholestasis p. 663
The Biology of Portal Hypertension p. 679
[alpha]1-Antitrypsin Deficiency p. 699
Pathophysiology of Liver Fibrosis p. 721
Alcoholic and Nonalcoholic Steatohepatitis p. 739
Ethanol and the Liver
Schistosomiasis: A Model of Immunologically Mediated Liver Disease p. 755
Immune Mechanisms of Viral Clearance and Disease Pathogenesis During Viral Hepatitis p. 763
Epidemiology, Natural History, and Prevention of Viral Hepatitis p. 783
Molecular Bases of Hepatitis B--and Hepatitis C--Related Chronic Liver Disease p. 801
Molecular Biology of Hepatitis Viruses p. 831
Liver Transplantation: Factors Affecting the Balance Between Tolerance and Rejection in Experimental Models p. 857
The Woodchuck Model of Hepatitis B Virus Infection
Viral Hepatitis: Antiviral Therapy p. 873
Horizons
Tissue Engineering of the Liver p. 901
A Genomic View of Hepatology: The Example of Liver Fibrosis p. 909
After Proteomics Comes Glycomics: How Proteins and Saccharides Interact and Influence Cell Biology p. 917
Liver Repopulation Through Cell Transplantation p. 927
Liver-Directed Gene Therapy p. 941
Novel Strategies for Manipulating Hepatic Gene Expression In Vivo p. 963
Regulation of the Eukaryotic Cell Cycle  p. 977
Molecular and Cellular Control of Angiogenesis  p. 987
Dynamics of Hepatitis B Virus Infection  p. 995
Telomeres and Telomerase in Experimental Liver Cirrhosis  p. 1001
Mechanism(s) of Hepatocarcinogenesis: Insight from Transgenic Mouse Models  p. 1013
Orphan Nuclear Receptors and Regulation of Cholesterol and Bile Acid Metabolism  p. 1029
Subject Index  p. 1041
