Preface
Acknowledgements

Classification and mechanism of action of cancer chemopreventive agents  p. 1
Chemoprevention of experimental mammary cancer by retinoids  p. 13
Chemoprevention of experimental mammary cancer by tamoxifen  p. 23
Chemopreventive effects of vitamin A (retinyl acetate and palmitate) and N-(4-hydroxyphenyl)retinamide in rats, with reference to mammary carcinoma  p. 47
Laboratory concepts and practical considerations for the use of antiestrogens as chemosuppressive agents  p. 61

Safety and tolerability of retinoids  p. 69
Fenretinide (4-HPR) in chemoprevention of cancer. Pharmacological studies  p. 77

Data management of chemopreventive trials. The example of the 4-HPR study for the prevention of contralateral breast cancer  p. 89

Statistical aspects of chemoprevention trials  p. 107
Ethical aspects and cost benefit evaluation of chemopreventive trials as illustrated by experience with carcinoma of the breast  p. 117

Intervention studies of primary liver cancer with nutritional supplementation of selenium in high risk population in China  p. 125
Chemoprevention of metachronous adenomas of the large bowel: a double blind randomized trial of antioxidants. Preliminary results  p. 133

Chemoprevention of colorectal cancer  p. 143

Chemoprevention of colorectal cancer  p. 143
Treatment and prevention of basal cell carcinoma with oral isotretinoin  p. 149
Chemoprevention of basal cell carcinoma by prolonged administration of the synthetic retinoid Fenretinide (4-HPR)  p. 161
Chemoprevention of aerodigestive epithelial cancers  p. 171
Chemoprevention of oral and esophageal precancerous lesions in the USSR  p. 187
Chemoprevention with Fenretinide (4-HPR) of recurrences, new occurrences and carcinomas after CO[subscript 2] laser excision of oral leukoplakias. A controlled clinical trial  p. 201

Lung cancer chemoprevention  p. 215
Acute promyelocytic leukaemia: rearrangements of the RARalpha and myl genes  p. 233
Controlled clinical trial with Fenretinide in the prevention of contralateral breast cancer. Rationale, design, methodological approach and accrual  p. 243

Hormone replacement therapy in postmenopausal women with tamoxifen: opportunities, goals and major questions  p. 261
Breast cancer chemoprevention with tamoxifen. A proposed study of the Italian Group for Cancer Chemoprevention  p. 267
Chemoprevention research studies in the United States  p. 279
Subject Index  p. 294
