The Regulation of Oxytocin Receptor Binding in the Ventromedial Hypothalamic Nucleus p. 357 by Gonadal Steroids

Ovarian Steroid Modulation of Oxytocin Receptor Binding in the Ventromedial Hypothalamus p. 374

Gonadal Steroid Modulation of Vasopressin Pathways p. 387

Pituitary Portal Plasma Levels of Oxytocin during the Estrous Cycle, Lactation, and Hyperprolactinemia p. 397

Ricin-Cytotoxin Conjugate Administration Reveals a Physiologically Relevant Role for Oxytocin in the Control of Gonadotropin Secretion p. 411

Poster Papers

Preventing Suckling-Induced Release of Oxytocin Does Not Inhibit Maternal Aggression in Lactating Rats p. 423

Oxytocin Messenger RNA Levels in Hypothalamic, Paraventricular, and Supraoptic Nuclei during Pregnancy and Lactation in Rats: Evidence for Regulation by Afferent Stimuli from the Offspring p. 425

Thymic Oxytocin Receptors during Development and after Steroid Treatments in Adults p. 429

Effects of Steroids and Mating on Central Oxytocin Receptors p. 433

Analysis of Oxytocin Release by Microdialysis and Interactions with Progesterone p. 437

Physiological Significance and Interactions between Oxytocin and Central Neuropeptide and Monoamine Neurotransmitters in the Regulation of the Preovulatory Secretion of Luteinizing Hormone p. 440

The Effects of Hypogastric and Pelvic Neurectomy on Oxytocin-Induced Facilitation of Receptivity p. 443

Central Oxytocin Antagonism Decreases Female Reproductive Behavior p. 445

Oxytocin Receptor Distribution Reflects Social Organization in Monogamous and Polygamous Voles p. 448

Social and Environmental Determinants of Centrally Administered Oxytocin Effects on Male Squirrel Monkey Behavior p. 452

Oxytocin in the Amygdala Facilities Maternal Aggression p. 456

Vasopressin and the Individual Differentiation in Aggression in Male House Mice p. 458

Opposite Effects of Central Amygdaloid Vasopressin and Oxytocin on the Regulation of Conditioned Stress Responses in Male Rats p. 460

Expression of Exogenous Vasopressin mRNA by Magno-Cellular Neurons of the Supraoptic and Paraventricular Nuclei in Brattleboro Rats p. 462

Afferent Projections of the Hamster Periaqueductal Gray: A Neural Site Where Vasopressin Can Stimulate Flank Marking p. 466

Existence of a Sexual Dimorphism in Vasopressin Binding in the Area of the Ventromedial Nucleus of the Hypothalamus in Hamsters p. 470

Localization and Characterization of Vasopressin but Not of Oxytocin-Binding Sites in the Sheep Olfactory Bulb p. 472

Oxytocin and Related Peptides Elicit Contractions of Prostate and Seminal Vesicle p. 474

The Oxytocin Secretory Response to Dopamine Receptor Agonists in Male and Female Monkeys p. 478

The Quantitative Effect of Oxytocin (Pitocin) on Human Milk Yield p. 481

The Relation of the Milk-Ejection Reflex to the Ability to Breast Feed p. 484
Partner Preference Development in Female Prairie Voles Is Facilitated by Mating or the Central Infusion of Oxytocin
