The GUIDE (Graphical User Interface Designed for Education) p. 1
Extending the Internet into the Home at The Ohio State University p. 8
MARS-Machine Automated Response System p. 16
Integrating Multi-Site Information Through Gopher p. 21
Network Information Centers (NICs): Is There One on Your Horizon? p. 34
The Evolution of Internet Access to Library Catalogs p. 45
Collection Development in the Electronic Library p. 50
Hello Users: This is Control or CD-ROM Access for All p. 57
Working Together: The Library and the Computer Center p. 62
Computer Center/Library Cooperation: The Greensboro Model p. 69
The Networked Library: A Cooperative Training Program for Today's Campus p. 76
User Services Staff and Faculty Collaboration: Cruel and Unusual Punishment? p. 80
Business Ethics: A Case Study Approach to Ethical Dilemmas and Decision Making in the Workplace p. 86
Financial Information System p. 93
Caprina: Wide Access to Digitized Images for Education p. 97
Diffusion and Adoption of the Digital Future: A Case Study in Bringing "Multimedia" to the Campus Community p. 102
Expanding the Campus Computing Community: Computer-Mediated Classrooms p. 108
The Joy of Cooking: About Computing in the Classroom - Know Your Ingredients p. 111
Seeding, Fertilizing, and Growing Faculty and Classroom Computing at IUB p. 117
There's Gold in Them Thar Networks! or Searching for Treasure in All the Wrong Places p. 130
The Challenge of the Internet Explosion: Ideas for Staying Ahead of the Users p. 150
Evangelizing the Internet Among Academics p. 155
A Gopher Interface to Relational Databases p. 160
"Keeping Those Cards and Letters Coming" or How to Make a Reliable and Stable Campus Wide Information System p. 165
A Rolling Gopher Gathers No Moss p. 168
Nonviolent Crowd Control p. 173
Universal Email: From Zero to 60 in 36 Months p. 179
Creating A Cost Effective News and Email Interface to the Internet p. 189
LANS are More than Just Wires: Reorganizing to Support Departmental Networks p. 194
Defining and Training Administrators for Distributed Networking p. 199
Distributed Consultants Get the Job Done: Ohio State's Computing Support On the Frontlines p. 204
Distributed Academic Computing Support at Arizona State University p. 206
The College Consultant Program: Marketing Management Challenges p. 212
Developing a Computer Use Policy at the University of California at Berkeley p. 219
You Don't Have to Look Like a Pirate to Be One - The Role of Academic Computing in Software Piracy Deterrence p. 225
Students Training Students: A Peer Training Program that Works p. 238
Managing Macs Made Painless: Leveraging the Right Tools for the Job  p. 243
Ergonomics - The Miracle Drug for Terminal Illness at MIT?  p. 256
The Making of an Unmonitored 24 Hour Access Computer Lab  p. 260
Security in Unattended Computing Labs - Safeguarding Users as Well as Machines  p. 267
Neither Rain Nor Sleet Nor Dark of Night...Managing Public Computer Clusters at MIT  p. 272

Striving for Competent Student Consultants  p. 276
Training Helpdesk: Using Students to Beat the Odds  p. 282
StopIt  p. 285
Expanding the Campus Computing Community: User Support of Non-traditional and Distance Learners at a Small, Liberal Arts College for Women  p. 288
Promoting Gender Equity in Computer Literacy  p. 292
Providing Information Technology Services at Queen's: A Task-Oriented Approach  p. 297
From the Ladder to the Matrix: Moving to Self-Directed, Cross-Functional Work Teams  p. 308

Providing User Services with Cross-Organizational Cooperation  p. 317
A Modular Design for User Satisfaction Assessments  p. 325
Expanding the Help Desk to Simplify Customer Access to CIT Services: The Integration of Services Across Platforms, Applications, and Units  p. 330
Moving from Demanding Service to Service on Demand: The Second Year  p. 335
Changing Services: Clients, Quality, and Collaboration  p. 338
Implementing Total Quality in Information Technology - The Second Year  p. 344
Applications of TQM for User Services  p. 346
"No Problem" Problem Tracking  p. 351
The Care and Feeding of a Network Connection Request  p. 357
Improved Help Line/Service Tracking Using a TQM Approach  p. 366
Doing More with Less  p. 371
Business Process Redesign in the Academic Environment  p. 381
Managing Chaos: Being Available Without Driving the Consultants Crazy  p. 408
Converting From a Paper to an On-line Computing Center Newsletter  p. 412
Putting It on the Silver Screen: The Transition from Paper Documents to Online Data Formats when Publishing Campus Information  p. 419
Documentation for "N" Users  p. 434
Documentation for Novice Computer Users  p. 437
From Chaos to Quality: The Evolution to High Caliber Instructional Materials  p. 440
Writing About TCP/IP: Challenges and a Solution  p. 443
Computing Training Culture Crash  p. 446
