Keynote Address: The Network Computer

Query Expansion Using Local and Global Document Analysis

The Design of a High Performance Information Filtering System

Pivoted Document Length Normalization

Retrieving Spoken Documents by Combining Multiple Index Sources

Viewing Stemming as Recall Enhancement

Querying Across Languages: A Dictionary-based Approach to Multilingual Information Retrieval

Experiments in Multilingual Information Retrieval using the SPIDER system

Visualizing Search Results: Some Alternatives To Query-document Similarity

Reexaming the Cluster Hypothesis: Scatter/Gather on Retrieval Results

Evaluation of a Tool for Visualization of Information Retrieval Results

An Architecture for Implementing Extensible Information-seeking Environments

Document Retrieval Facilities for Repository-based System Development Environments

Performance Evaluation of a Distributed Architecture for Information Retrieval

Elicitations during Information Retrieval: Implications for IR System Design

Evaluating User Interfaces to Information Retrieval Systems: A Case Study on User Support

Efficient Processing of One- and Two-dimensional Proximity Queries in Associative Memory

Efficient Transaction Support for Dynamic Information Retrieval Systems

Image Organization and Retrieval with Automatically Constructed Feature Vectors

Phonetic String Matching: Lessons from Information Retrieval

Experiments on Using Semantic Distances between Words in Image Caption Retrieval

Automatic Linking of Thesauri

A New Method of Weighting Query Terms for Ad-Hoc Retrieval

A Relevance Terminological Logic for Information Retrieval

Retrieval of Complex Objects Using a Four-Valued Logic

Using n-Grams for Korean Text Retrieval

On Chinese Text Retrieval

A Deductive Data Model for Query Expansion

An Application of Plausible Reasoning to Information Retrieval

A Belief Network Model for IR

Document Filtering With Inference Networks

Incremental Relevance Feedback for Information Filtering

Method Combination for Document Filtering

Combining Classifiers in Text Categorization

Training Algorithms for Linear Text Classifiers

Context-sensitive learning Methods for Text Categorization

Detection of Shifts in User Interests for Personalized Information Filtering

Interactive Information Retrieval Systems: From User Centered Interface Design to Software Design
Panel: Building and Using Test Collections  p. 335
Foundations of Advanced Information Visualization for Information Retrieval
Systems  p. 343
Courseware, Training and Curriculum in Information Retrieval  p. 343
Research in Information Retrieval and the Practical Needs of Research and Cultural
Libraries  p. 344
Cross-linguistic Information Retrieval Workshop  p. 344
Networked Information Retrieval  p. 344

Table of Contents provided by Blackwell's Book Services and R.R. Bowker. Used with permission.
