USERS LOST: Reflection on the Past, Future and Limits of Information Science p. 1
Information Retrieval with a Dictionary p. 3
Fast and Effective Query Refinement p. 6
On Relevance Weights with Little Relevance Information p. 16
Learning Routing Queries in a Query Zone p. 25
Comparing Representations in Chinese Information Retrieval p. 34
Chinese Text Retrieval Without Using a Dictionary p. 42
PAT-Tree-Based Keyword Extraction for Chinese Information Retrieval p. 50
Almost-Constant-Time Clustering of Arbitrary Corpus Subsets p. 60
Feature Selection, Perceptron Learning, and a Usability Case Study for Text Categorization p. 67
A Comparison of Projections for Efficient Document Clustering p. 74
Phrasal Translation and Query Expansion Techniques for Cross-Language Information Retrieval p. 84
QUILT: Implementing a Large-Scale Cross-Language Text Retrieval System p. 92
Cross Language Speech Retrieval p. 99
Dempster-Shafer's Theory of Evidence Applied to Structured Documents: Modelling Uncertainty p. 110
Computationally Tractable Probabilistic Modelling of Boolean Operators p. 119
A Method for Monolingual Thesauri Merging p. 129
Textual Analysis for Information Retrieval p. 140
Effective Use of Natural Language Processing Techniques for Automatic Conflation of Multi-Word Terms: The Role of Derivational Morphology, Part of Speech Tagging, and Shallow Parsing p. 148
Guessing Morphology from Terms and Corpora p. 156
Optimal Demand-Oriented Topology for Hypertext Systems p. 168
Passage Retrieval Revisited p. 178
Exploration of Text Collections with Hierarchical Feature Maps p. 186
Users' Perception of the Performance of a Filtering System p. 198
Time, Relevance and Interaction Modelling for Information Retrieval p. 206
How to Read Less and Know More - Approximate OCR for Thai p. 216
Effectiveness of a Graphical Display of Retrieval Results p. 236
Cat-a-Cone: An Interactive Interface for Specifying Searches and Viewing Retrieval Results Using a Large Category Hierarchy p. 246
A Probabilistic Model for Distributed Information Retrieval p. 258
Analyses of Multiple Evidence Combination p. 267
Image Retrieval by Appearance p. 278
Using Semantic Contents and WordNet in Image Retrieval p. 286
Image Retrieval by Hypertext Links p. 296
Exploiting Clustering and Phrases for Context-Based Information Retrieval p. 314
The Potential and Actual Effectiveness of Interactive Query Expansion p. 324
