Preface

The Regulation of Access to Natural Resources in Marine Aquaculture p. 1
Opportunities and Challenges for Coastal and Marine Aquaculture p. 20
Production, Competition and Markets: The Evolution of the Salmon Aquaculture Industry p. 32
Aquaculture Products and Market Potential p. 52
Development and Achievements of Marine Juvenile Production p. 70
Sea Ranching at Arcachon, a Durable Exploitation Mode of the Marine Resources by the Application of the Aquacapture Concept: the Controlled Exploitation of Sea Resources p. 83

Artificial Reefs and Mariculture p. 91
Nutrition, Energetics and Growth of Fish: Current Challenges and Approaches p. 99
Progress in Larviculture Nutrition of Fish and Shellfish p. 116
Nutrition Research for Sustained Development of Marine Finfish Culture p. 119
Increased Involvement of the Fish Culture Research Institute (HAKI) in International R&D; Cooperation p. 131
A Review of the Main Strategies for Control of Infectious Fish Diseases p. 137
Disease Recognition and Diagnosis of Fish p. 145
Development and Availability of Medicines for Fish p. 155
The Mode of Action and Use of Immunostimulants in Fish and Shellfish Farming p. 181
Vaccination of Fish - Achievements and Challenges p. 197
Rapid Genetic Improvement in Aquaculture? p. 212
The Application of Biotechnology in Fish Reproduction p. 231
Recent Developments in the Control of Reproduction of Farmed Fish p. 243
GIS-based Environmental Modelling for Management of Coastal Aquaculture and Natural Resources: A Case Study in Baia de Sepetiba, Brazil p. 261
An Assessment of the Mediterranean Aquaculture Development p. 275
The Portuguese Experience on Artificial Reefs: Past and Future p. 281
Conclusions and Recommendations p. 295
Author Index p. 301
