### Preface

Introduction

**Materials Research Society Symposium Proceedings**

- High Resolution Electron Microscopy of Maya Blue Paint
- Viceregal Architecture: Materials, Reconstruction, and Environment
- The Contribution of Materials Science to Material Culture Studies
- Eco-Archeometry and Conservation
- Archaeological Artifact and Biomolecule Affiliation: Testing the Consequences of Cleaning
- A Multidisciplinary Approach for the Study of the Deterioration of the Juan O'Gorman's Mosaic Murals Covering the Central Library Building of the Universidad Nacional Autonoma De Mexico (UNAM), in Mexico City
- Preservation Responsibilities: Material Care and Materials Science for Paper-Based Research Collections
- X-Ray Microtomography of Ceramic Artifacts
- Interpreting Lipid Residues in Archaeological Ceramics: Preliminary Results from Laboratory Simulations of Vessel Use and Burial
- Infrared Microspectroscopy Mapping Techniques for the Analysis of Cross Sections and as a Non-Destructive Analysis Method for Paint on a Manuscript
- Metallography and Microanalysis of Precious Metal Objects from the Middle Sican Elite Tombs at Batan Grande, Peru
- Neutron Activation Analysis of Microgram Samples from 364 Gold Objects from a Sican Burial Site in Peru
- Characterisation of Overglaze Painting on Japanese Porcelain Using Scanning Proton and Electron Microprobes
- Detection of Alteration Products in Artworks by Non-Destructive Spectroscopic Analysis
- Atomic Oxygen Treatment for Non-Contact Removal of Organic Protective Coatings from Painting Surfaces
- A Forward Recoil Energy Spectrometry (FRES) Test of Hydrogen Reduction as a Strategy for Firing of Chinese Ceramics
- Microdots as a Means of Marking and Tracking Artifacts
- Surface Colour Transfer from Metal, Ivory and Stone to Ceramic and Glass
- The Technology of Venetian Girasole Glass
- Investigation and Replication of the Surface Microstructure of Early Chinese Black Bronze Mirrors
- Ancient Mexican Rubber Artifacts and Modern American Spacesuits: Studies in Crystallization and Oxidation
- Advantages and Limitations of the Ninhydrin Test for Analysis of Historic Wool Fibers
- Accelerated vs Natural Aging: Effect of Aging Conditions on the Aging Process of Cellulose
- Genuine Vegetable Parchment Paper: Effects of Accelerated Aging on Some Physical and Chemical Properties
- A General Model Relating Externally Applied Forces to Environmentally Induced Stresses in Materials
- The Development of Internal Stress in Films of Thermoplastic Polymers Cast From Solution

The Effects of Relative Humidity on the Structural Response of Selected Wood Samples in the Cross-Grained Direction

Strength Testing Archaeological Ceramics: New Approaches and Applications

Mapping Patterns of Cracking and Moisture Migration in Early Brickwork and Replicating Shell Lime Mortar

Fourier Transform Infrared Spectroscopic Study of Silane/Stone Interface

Metallurgy and Corrosion of Cast Iron Cannons from Fort Prince of Wales, Manitoba

Original Technique of the Mural America Tropical by David Alfaro Siqueiros

Characterization and Reproduction of the Pb-Sn Alloy Used in the Manufacture of Pipes in a Nineteenth Century Mexican Organ

An Analysis of Mayan Painting Techniques at Bonampak, Chiapas, Mexico

Materials Characterization of Natural Adobe Plasters: New Approaches for Preservation Strategies Based on Traditional Practice

Corrosion of Synthesized Glasses and Glazes as Analogs for Nuclear Waste Glass Degradation

Early Venetian Enamelling on Glass: Technology and Origins

An Investigation of Early Islamic Glass Production at Raqqa, Syria

An Interdisciplinary Study of Middle Cycladic White Wares from Akrotiri on Thera

Second Millennium B.C. Pottery at Hasanlu Tepe and Dinkha Tepe: INAA and Petrographic Studies

Relative Dating of the Stucco Relieves at Palenque, Chiapas, Based on Variation in Material Preparation

Studies on the Mayan Mortars Technique

New Studies in the Building Materials of Teotihuacan, Mexico

Goldwork of Pre-Columbian Costa Rica and Panama: A Technical Study

Glazed Steatite Beads from Merhgarh and Nausharo (Pakistani Balochistan)

Continuity, Adaptation and Resistance: The Cultural Contexts of the Manufacture, Distribution and Use of African American Pottery in Eighteenth-Century Charleston, South Carolina

A Comparison of Production of Large Storage Vessels in Two Ancient Ceramic Traditions

The Use of FT-IR Spectrometry for the Identification and Characterization of Gesso-Glue Grounds in Wooden Polychromed Sculptures and Panel Paintings

Ceramic Technology as an Indicator of Acculturation in the Early Colonial Setting

Preliminary Investigation of Orange Micaceous Earthenware from the Early Colonial Period Charles Towne Colony, Cape Fear River, North Carolina: Implications for Local Manufacture

A Petrographic Analysis of Storage Jars from Tel Nami, Israel: Ceramic Production and Trade Networks of the Middle Bronze IIA Period (CA. 2000-1750, BC)

Metal Contents of Silver and Gold Ingots and Coins from 16th-18th Century Spanish Shipwrecks

Neutron Activation Analysis of Microgram Samples of Sasanian Coins and Metallic Art

Copper-Alloyed Artefacts from Roman Imports in Scandinavia: Elemental Analysis

Metal Supply and Metal Trade in Bronze Age Eastern Mediterranean
"Low-Tech" Methods for Characterizing Materials in the Field
On Some Natural Organic Yellow Colorants in Aztec Codices: The Florentine Codex
An Assessment of Minoan Slips from Pseira, Crete, Using Scanning Electron Microscopy
East Cretan Middle Minoan and Late Minoan I Dark Slips: Pixe Characterization Studies
Technical Investigation of an Hispano-Moresque Lustered Deep Dish in the Walters Art Gallery
Ceramic Technology at the Crossroads
Studying the Technology of Renaissance Bronzes
Paper Investigations of Maya and Aztec Cultures
Stuccoed Floors: A Resource for the Study of Ritual Activities. The Case of Templo Mayor, Mexico
Medieval Pigment and Plaster Technology in the XII-XIII Century Mural Paintings at David-Garedji, Georgia
Mechanical Characteristics of Some Volcanic Tuffs Used in the Buildings of Ancient Rome
Environmental Monitoring and Damage Assessment at the Ancient Sanctuary of Demeter in Eleusis, Greece
Restoration Synthesis of Crushed Brick Mortars Simulating Byzantine Lime and Material Technologies in Crete
Chemico-Physical Interactions Among the Constituents of Historical Walls in Venice
Study of Pre-Hispanic Metallic Objects Found in Cuba
Reburial of the Red Bay Wreck as a Form of Preservation and Protection of the Historic Resource
The Effects of Solvent Quality on Some Properties of Thermoplastic Amorphous Polymers Used in Conservation
Conservation Studies on Limestone from the Maya Site at Xunantunich, Belize
Recent Developments in the Use of Epoxy Resins for Stone Consolidation
Identification of Chemical and Physical Change During Acid Cleaning of Ceramics
The Effects of Desalination on Archaeological Ceramics from the Casas Grandes Region in Northern Mexico
Comparative Study of Four Consolidants Used for Cellulosic Supports
Investigation of the Effects of the Cleaning Procedures Applied to Stone Surfaces
A Monitoring Program for Shipwrecks at Fathom Five National Marine Park, Canada
Environmental Monitoring at Tiwanaku
Salt and Humidity Impact on Porous Stone Masonries in Marine Environment
The Relevance of Acoustical Methods in Estimating Cavity-Induced Mural Degradation
