Preface
Mechanisms for the Regulation of State Changes in the Central Nervous System: An Introduction
Elementary Central Nervous System Arousal
Mechanisms in the Animal Brain
Concepts and Mechanisms of Generalized Central Nervous System Arousal
Modulation of Cortical Activation and Behavioral Arousal by Cholinergic and Orexinergic Systems
Dopamine Signaling in the Dorsal Striatum Is Essential for Motivated Behaviors: Lessons from Dopamine-Deficient Mice
Ablation of the Central Noradrenergic Neurons for Unraveling Their Roles in Stress and Anxiety
Heightened States of Arousal: Sex and Fear
Neural Substrates for Sexual Preference and Motivation in the Female and Male Rat
Motivational Influences on the Degree and Direction of Sexual Attraction
Fear Conditioning and Long-term Potentiation in the Amygdala: What Really Is the Connection?
Insights into the Pharmacological Potential of Estrogens and Phytoestrogens on Catecholamine Signaling
Elementary Central Nervous System Arousal: Clinical Studies
Central Thalamic Contributions to Arousal Regulation and Neurological Disorders of Consciousness
Intrinsic Brain Activity in Altered States of Consciousness: How Conscious Is the Default Mode of Brain Function?
Detecting Awareness in the Vegetative State
The Emotion-Cognition Interface
Neural Mechanisms Underlying Selective Attention to Threat
Toward a Neurogenetic Theory of Neuroticism
Gene Expression Is Altered in the Lateral Hypothalamus upon Activation of the mu Opioid Receptor
Bipolar Disorder as Maladaptive Arousal: A Behavioral Model and Evidence
Alertness and Attention
Underlying Mechanisms
Measuring Alertness
Molecular Genetics of Attention
Potential Anatomical Basis for Attentional Modulation of Hippocampal Neurons
Cholinergic Mediation of Attention: Contributions of Phasic and Tonic Increases in Prefrontal Cholinergic Activity
Neuronal Mechanisms Underlying Attention Deficit Hyperactivity Disorder: The Influence of Arousal on Prefrontal Cortical Function
Placing Neuroanatomical Models of Executive Function in a Developmental Context: Imaging and Imaging-Genetic Strategies
Functional Gene Variation in the Human Norepinephrine Transporter: Association with Attention Deficit Hyperactivity Disorder
Circadian Rhythms in the Activation of Behavior
Physiologic Mechanisms of Arousal and Sleep
Circadian and Homeostatic Factors in Arousal p. 263
Hypothalamic Regulation of Sleep and Arousal p. 275
Associations between Sleep Loss and Increased Risk of Obesity and Diabetes p. 287
Sleep Deprivation and Vigilant Attention p. 305
Genomics of Sleep and Biological Clocks
Sleep and Wakefulness in Drosophila melanogaster p. 323
Why Does Consciousness Fade in Early Sleep? p. 330
Molecular Mechanisms of Sleep and Wakefulness p. 335
The In(put)s and Out(put)s of the Drosophila Circadian Clock p. 350
Peripheral Circadian Oscillators: Interesting Mechanisms and Powerful Tools p. 358
Index of Contributors p. 371
