Preface  p. xv
Acknowledgments  p. xvii
Skycrane Timeline  p. xx
Igor Sikorsky Defines the Crane Helicopter  p. 1
The Russian Years  p. 1
Immigration and Success in America  p. 1
Second Helicopter Attempt after 30 Years  p. 1
Army Orders  p. 3
Sikorsky Aircraft Becomes the Free World's Largest Supplier  p. 4
Crane Helicopter  p. 4
Conclusion  p. 12
S-60 Experimental Crane Proves the Concept  p. 13
S-60 Early Design Work  p. 13
Approval to Build S-60 with Company Funds and DOD Components  p. 15
S-60 Proves Crane Concept with Flight Demonstrations  p. 16
Flight Testing on the Open Platform  p. 17
Passenger Pod  p. 18
Recommended Changes for the Next Crane  p. 19
Conclusion  p. 20
Development of the S-64 Production Skycrane  p. 21
Approval to Build an All-New Crane  p. 21
Major Physical Changes from the S-60 Crane  p. 21
Unique Design Features of the S-64  p. 23
Missions of the S-64  p. 25
Productivity of Crane- vs Cabin-Loaded Helicopters  p. 26
Productivity of the Crane vs Externally Loaded Cabin Helicopters  p. 26
Basic Power and Control Systems of the S-64  p. 27
Crane Mode vs Cargo Mode of Lifting  p. 27
Development of the First S-64  p. 28
First S-64 Flies to Army Base Two Months after First Flight  p. 30
Additional Tests and Demonstrations  p. 31
Army Orders Six YCH-54As  p. 32
Conclusion  p. 33
West German Military Verifies S-64 Performance  p. 35
German Need for Heavy Lift  p. 35
S-64 Wins Competition  p. 36
VFW Test Program Successful, But Requirement Cancelled  p. 38
Sikorsky/VFW Team Competes for New Requirement  p. 38
Order Obtained for 110 CH-53s  p. 38
Sikorsky/VFW Coproduction Begins in 1971  p. 40
Conclusion  p. 40
