Offering Dimension

PSS Layer Method - Application to Microenergy Systems

Industrial Challenges

From Product-Service Systems to Sustainable Microenergy Systems

Introduction to Product-Service Systems

Introduction to Microenergy Systems as an Example of PSS

Introduction to Sustainability

The PSS Layer Method

Purpose and Use

Industrial Application Case in Detail - The Solar Home System of MicroEnergy International

Evaluation of the Sustainability of the System

Reflection and Findings

Experiences and Opportunities

Limitations and Potential for Improvement

Recommendations

Outlook

Life-Cycle Perspectives of Product/Service-Systems: Practical Design Experiences

Introduction

Background

Aim

Case Study Methodology

Industrial Case Study Results

Case A: Household Appliances
The Transition from Product to Service-Orientation p. 212
Future Perspectives p. 214
Conclusions p. 215
References p. 216
People, Product and Process Perspectives on Product/Service-System Development p. 219
Product/Service-Systems p. 220
The Role of Models in Product Development p. 222
Changed View for Development p. 223
Product p. 224
Service p. 226
Systems p. 229
A Multiple Perspective on PSS Development p. 231
Implications and Suggestions for Industry p. 233
Suggestions for Further Research p. 234
References p. 235
Managerial Recommendations for Service Innovations in Different Product-Service Systems p. 237
Introduction p. 238
Problems with Service Innovations p. 240
Product-Service Systems and Corresponding Service Strategies p. 241
Determinants to Success for Service innovations p. 247
Aligning Service Innovations with Service Strategies p. 249
Service Innovations with After-Sales Service Providers p. 249
Service Innovations with Customer Support Service Providers p. 251
Service Innovations with Development Partners p. 252
Service Innovations with Supplementary Service Providers p. 253
Service Innovations with Outsourcing Partners p. 255
Future Trends p. 256
Conclusions p. 257
References p. 258
Bibliography p. 261
Index p. 277
