Precambrian to Modern manganese mineralization: changes in ore type and depositional environment  p. 1
Genetic diversity of manganese deposition in the terrestrial geological record  p. 5
Fractionation of manganese from iron in Archaean and Proterozoic sedimentary ores  p. 29
Lithological and geochemical evidence of Fe and Mn pathways during deposition of lower Proterozoic Banded Iron Formation in the Krivoy Rog Basin (Ukraine)  p. 43
Insight into the enigma of Neoproterozoic manganese and iron formations from the perspective of supercontinental break-up and glaciation  p. 81
Mineralogy and geochemistry of Archaean greenstone belt-hosted Mn formations and deposits of the Dharwar Craton: redox potential of proto-oceans  p. 91
Deep-water manganese deposits in the middle to late Proterozoic Penganga Group of the Pranhita-Godavari valley, South India  p. 105
Manganese ores of the Ghoriajhor - Monmunda area, Sundergarh District, Orissa, India: geochemical evidence for a mixed Mn source  p. 117
Iron and manganese oxide mineralization in the Pacific  p. 123
Some controls on the geochemical variability of manganese nodules with particular reference to the tropical South Pacific  p. 139
Growth history of manganese nodules and crusts of the Peru Basin  p. 153
Distribution and composition of marine hydrogenetic and hydrothermal manganese deposits in the northwest Pacific  p. 177
Geochemical constraints on the hydrothermal origin of ferromanganese encrustations from the Rodriguez Triple Junction, Indian Ocean  p. 199
Environments of formation of ferromanganese concretions in the Baltic Sea: a critical review  p. 213
Deception Island (Antarctica): a new target for exploration of Fe-Mn mineralization?  p. 239
Terrestrial hot-spring Co-rich Mn mineralization in the Pliocene-Quaternary Calatrava Region (central Spain)  p. 253
An EPMA and SEM study of the Mn-oxide mineralization of Kato Nevrokopi, Macedonia, northern Greece: controls on formation of the Mn$^{4+}$ oxides  p. 265
Recent manganese oxide deposits in Hokkaido, Japan  p. 281
Formation of solid phases of manganese in oxygenated aquatic environments  p. 301
Geochemistry of manganese oxides: metal adsorption in freshwater and marine environments  p. 309
P-T-X relationships during metamorphism of manganese-rich sediments: current status and future studies  p. 327
Zincian rancieite from the Kato Nevrokiopi manganese deposits, Macedonia, northern Greece  p. 339
The determination of the valancy of manganese in mineralogical and environmental samples by X-ray emission spectroscopy  p. 349
Index  p. 357
