Introduction
What Does TLC Mean? p. 1
When Is TLC Used? p. 2
Where Is TLC Used? p. 3
How Is the Result of a TLC Represented? p. 4
Retardation Factor p. 4
Flow Constant p. 6
Other TLC Parameters p. 7
What Kinds of Reference Substances Are Used in TLC? p. 8
Tire Literature on TLC p. 9
General Literature p. 9
Books and Information Sheets in German p. 9
Books in English p. 11
Book in Another Language p. 11
Journals p. 12
German Language Journals Containing Articles on TLC (Selection) p. 12
English Language Journals on TLC p. 12
English Language Journals Containing General Articles on Chromatography (Selection) p. 12
Abstracts p. 13
Pharmacopoeias p. 13
Precoated Layers p. 15
Precoated Layers - Why? p. 15
What Are Precoated Layers Produced? p. 16
Sorbents p. 16
Supports for Stationary Phases p. 19
Additives p. 20
What Types of Precoated Layers Are There? p. 21
What Are the Uses of Precoated Layers? p. 27
Criteria for the Selection of Stationary Phases in TLC p. 27
How Can the Choice of the Stationary Phase be Made? p. 28
How Can the Recommendations for Stationary Phases Found in Pharmacopoeias be Applied to Precoated Layers? p. 28
Effect of the Stationary Phase When Mobile Phases Are Identical p. 30
Advice on the Ordering and Storage of Precoated Layers p. 31
Problems in the Naming and Arrangement of Precoated Layers p. 33
Before the TLC Development Process p. 35
Handling of Precoated Layers p. 35
Film and Foil p. 35
Glass Plates p. 36
Prewashing p. 41
Activation p. 43
Conditioning  p. 44
Impregnation  p. 46
Impregnation by Dipping  p. 46
Impregnation by Spraying  p. 46
Impregnation by Predevelopment  p. 47
Application of Samples  p. 50
Manual Application of Samples  p. 51
Semiautomatic Application  p. 56
Fully Automatic Application  p. 61
Positioning of the Samples  p. 65
Drying Before the Development  p. 67
Solvent Systems, Developing Chambers and Development  p. 69
Solvent Systems  p. 69
Choice of Solvent Systems  p. 70
Preparation and Storage of Solvent Systems  p. 79
Problematical Solvent System Compositions  p. 82
TLC Developing Chambers  p. 87
What Types of TLC Developing Chambers Are There?  p. 87
TLC Chambers for Vertical Development  p. 88
TLC Developing Chambers for Horizontal Development  p. 90
Influence of the Chamber Atmosphere  p. 91
The Unsaturated N-Chamber  p. 93
The Saturated N-Chamber  p. 94
Influence of Temperature in Chromatography  p. 97
Location and Labeling of TLC Developing Chambers  p. 91
Development of Thin-Layer Chromatograms  p. 99
One-Dimensional Thin-Layer Chromatography  p. 100
Vertical Development  p. 101
Horizontal Development  p. 106
Two-Dimensional Thin-Layer Chromatography  p. 108
Drying After Development  p. 111
Evaluation Without Derivatization  p. 113
Direct Visual Evaluation  p. 113
Detection in Daylight  p. 113
Detection with 254-nm UV Light  p. 113
Detection with 365-nm UV Light  p. 115
Direct Optical Evaluation Using Instruments  p. 116
Principle of Operation of a TLC Scanner  p. 116
Direct Optical Evaluation Above 400 nm  p. 117
Direct Optical Evaluation Below 400 nm  p. 117
Direct Optical Evaluation with 365-nm UV Light (Fluorescence Measurement)  p. 117
