First International Workshop on Conceptual Modeling for GIS (CoMoGIS 2004)

Preface to CoMoGIS 2004

Geographical Conceptual Modeling
A Conceptual Model for Supporting Multiple Representations and Topology Management

Modeling Geospatial Databases with Plug-Ins for Visual Languages: A Pragmatic Approach and the Impacts of 16 Years of Research and Experimentations on Perceptrion

Representing Ecological Niches in a Conceptual Model
A CASE Tool for Geographic Database Design Supporting Analysis Patterns
Spatial Storage, Indexing and Data Consistency
GML Storage: A Spatial Database Approach
TPKDB-Tree: An Index Structure for Efficient Retrieval of Future Positions of Moving Objects
Moving Point Indexing for Future Location Query
Topological Consistency for Collapse Operation in Multi-scale Databases
Spatial Representation and Spatial Services
Symbolization of Mobile Object Trajectories with the Support to Motion Data Mining

Representing and Reasoning About Spatial Knowledge Based on Spatial Relevant Logic
Towards System Architecture of Spatial Information Grid and Service-Based Collaboration
Geo Web Services Based on Semantic
Spatial Querying and Retrieval
A Scaleless Data Model for Direct and Progressive Spatial Query Processing
Querying Heterogeneous Spatial Databases: Combining an Ontology with Similarity Functions
Retrieval of Heterogeneous Geographical Information Using Concept Brokering and Upper Level Ontology
A New Quick Point Location Algorithm
First International Workshop on Conceptual Model-Directed Web Information Integration and Mining (CoMWIM 2004)
Preface to CoMWIM 2004
Web Information Integration
Checking Semantic Integrity Constraints on Integrated Web Documents
X2S: Translating XPath into Efficient SQL Queries
On Aggregation Operators for Fuzzy Information Sources
Web Information Mining
CL
TCMiner: A High Performance Data Mining System for Multi-dimensional Data Analysis of Traditional Chinese Medicine Prescriptions
Association Rule Mining Based on the Multiple-Dimensional Item Attributes
Conceptual Model for Web Information
OWL-Based Semantic Conflicts Detection and Resolution for Data Interoperability
From Ontology to Relational Databases p. 278
A New Dynamic Indexing Structure for Searching Time-Series Patterns p. 290
Web Information Systems and Web Services
Automatic Location and Separation of Records: A Case Study in the Genealogical Domain p. 302

Research and Implementation of CORBA Web Services p. 314
Grammar Based Interface Processing in Web Service Composition p. 323
Query Rewriting for Extracting Data Behind HTML Forms p. 335
Third International Workshop on Evolution and Change in Data Management (ECDM 2004)

Preface to ECDM 2004 p. 349
Systems Evolution Support in Conceptual Modeling
Automatic Integrity Constraint Evolution due to Model Subtract Operations p. 350
An Ontological Framework for Evolutionary Model Management p. 363
Elementary Translations: The Seesaws for Achieving Traceability Between Database Schemata p. 377
Temporal and Evolution Aspects in Internet-Based Information Systems
Towards the Management of Time in Data-Intensive Web Sites p. 390
Evolution of XML-Based Mediation Queries in a Data Integration System p. 402
Schema Evolution and Versioning in Data Management
Schema Versioning in Data Warehouses p. 415
Facilitating Database Attribute Domain Evolution Using Mesodata p. 429
Multitemporal Conditional Schema Evolution p. 441
First International Workshop on Conceptual Modeling for Agents (CoMoA 2004)
Preface to CoMoA 2004 p. 457
Conceptual Modelling of Agents
A Sociological Framework for Multi-agent Systems Validation and Verification p. 458
Spatio-temporal Relevant Logic as the Logical Basis for Specifying, Verifying, and Reasoning About Mobile Multi-agent Systems p. 470
Towards an Ontology for Agent Mobility p. 484
Agents’ Applications and Conceptual Models
Subjective Trust Inferred by Kalman Filtering vs. a Fuzzy Reputation p. 496
Conceptual Model of BDI Agents within an ITS p. 506
Model-Driven Agent-Based Web Services IDE p. 518
AFDM: A UML-Based Methodology for Engineering Intelligent Agents p. 529
Preface to DGOV 2004 p. 541
Digital Government: Systems
IECS: An Integrated E-Community System for Management, Decision and Service p. 542
WebDG - A Platform for E-Government Web Services p. 553
A Study on Camera-Detector System for Traffic Control in Korea p. 566
Digital Government: Technologies
Ontology-Based Models of Legal Knowledge p. 577
Aspects of Regulatory and Legal Implications on e-Voting p. 589
Architecture for Implementing the Mobile Government Services in Korea p. 601
Fifth International Workshop on Conceptual Modeling Approaches for E-Business (eCOMO 2004) Preface to eCOMO 2004 p. 615
E-Business Systems Requirements Engineering
Modeling Business Strategy in E-Business Systems Requirements Engineering p. 617
A Method and Tool for Wide Audience Requirements Elicitation and Rapid Prototyping for Mobile Systems p. 629
Methodology for the Development of a Sectoral Standard for EDI p. 641
E-Business Processes and Infrastructure
Classification of Business Process Correspondences and Associated Integration Operators p. 653
On Behavioural Model Transformation in Web Services p. 667
Model-Driven Planning and Development of Infrastructures for E-Commerce p. 679
Author Index p. 691
