Knowledge Modelling Languages and Tools

OIL in a Nutshell p. 1

The Knowledge Model of Protege-2000: Combining Interoperability and Flexibility p. 17

A Case Study in Using Protégé-2000 as a Tool for CommonKADS p. 33

The MOKA Modelling Language (Short Paper) p. 49

Md p. 57

Ontologies

Ontology's Crossed Life Cycles p. 65

A Roadmap to Ontology Specification Languages p. 80

A Formal Ontology of Properties p. 97

Construction and Deployment of a Plant Ontology p. 113

The Role of Ontologies for an Effective and Unambiguous Dissemination of Clinical Guidelines p. 129

Supporting Inheritance Mechanisms in Ontology Representation p. 140

Conflict Resolution in the Collaborative Design of Terminological Knowledge Bases p. 156

Knowledge Acquisition from Texts

Revisiting Ontology Design: A Methodology Based on Corpus Analysis p. 172

Mining Ontologies from Text p. 189

SVETLAN’ or How to Classify Words Using Their Context p. 203

Machine Learning

KIDS: An Iterative Algorithm to Organize Relational Knowledge p. 217

Informed Selection of Training Examples for Knowledge Refinement p. 233

Experiences with a Generic Refinement Toolkit (Short Paper) p. 249

Knowledge Management & E-Commerce

What's in an Electronic Business Model? p. 257

Chinese Encyclopaedias and Balinese Cockfights - Lessons for Business Process Change and Knowledge Management p. 274

Using Problem-Solving Models to Design Efficient Cooperative Knowledge Management Systems Based on Formalization and Traceability of Argumentation (Short Paper) p. 288

Integrating Textual Knowledge and Formal Knowledge for Improving Traceability (Short Paper) p. 296

Knowledge Management by Reusing Experience (Short Paper) p. 304

Problem-Solving Methods

Integrating Knowledge-Based Configuration Systems by Sharing Functional Architectures p. 312

The Nature of Knowledge in an Abductive Event Calculus Planner p. 328

Adapting Tableaux for Classification (Short Paper) p. 344

Knowledge Representation

Conceptual Information Systems Discussed through an IT-Security Tool p. 352

Translations of Ripple Down Rules into Logic Formalisms p. 366

Generalising Ripple-Down Rules (Short Paper) p. 380
