Robotics and Computer Vision
Motion Planning for Car-Like Robots Using Lazy Probabilistic Roadmap Method p. 1
A Vision System for Environment Representation: From Landscapes to Landmarks p. 11
Adapting the Messy Genetic Algorithm for Path Planning in Redundant and Non-redundant Manipulators p. 21
Navigation Advice from pq-Histograms p. 31
Path Planning Using a Single-Query Bi-directional Lazy Collision Checking Planner p. 41
An Exploration Approach for Indoor Mobile Robots Reducing Odometric Errors p. 51
Feature Matching Using Accumulation Spaces p. 61
On Selecting an Appropriate Colour Space for Skin Detection p. 69
Heuristic Search and Optimization
A Methodology for the Statistical Characterization of Genetic Algorithms p. 79
MPSA: A Methodology to Parallelize Simulated Annealing and Its Application to the Traveling Salesman Problem p. 89
A Cultural Algorithm for Constrained Optimization p. 98
Automatic Generation of Control Parameters for the Threshold Accepting Algorithm p. 118
Genetic Algorithms and Case-Based Reasoning as a Discovery and Learning Machine in the Optimization of Combinational Logic Circuits p. 128
Speech Recognition and Natural Language
Time-Domain Segmentation and Labelling of Speech with Fuzzy-Logic Post-Correction Rules p. 138
Out-of-Vocabulary Word Modeling and Rejection for Spanish Keyword Spotting Systems p. 156
The DIME Project p. 166
Using Long Queries in a Passage Retrieval System p. 185
Logic
Object-Oriented Constraint Programming with J.CP p. 194
A Hybrid Treatment of Evolutionary Sets p. 204
Games and Logics of Knowledge for Multi-agent Systems p. 214
Modelling Learners of a Control Task with Inductive Logic Programming: A Case Study p. 224
Simple Epistemic Logic for Relational Database p. 234
Solving Optimal Location of Traffic Counting Points at Urban Intersections in CLP(FD) p. 242
Flexible Agent Programming in Linear Logic p. 252
Neural Networks
Sample Complexity for Function Learning Tasks through Linear Neural Networks p. 262
Extracting Knowledge from Artificial Neural Networks: An Empirical Comparison of Trepan and Symbolic Learning Algorithms p. 272
Improving Pattern Recognition Using Several Feature Vectors p. 282
