Invited Papers

Knowledge Representation for Information Integration p. 1
Infrastructure and Interoperability for Agent-Mediated Services p. 4
Improving Classification by Removing or Relabeling Mislabeled Instances p. 5
Incremental Learning with Partial Instance Memory p. 16
KDD-Based Approach to Musical Instrument Sound Recognition p. 28
Learning Significant Alignments: An Alternative to Normalized Local Alignment p. 37

Intelligent User Interface and Ontologies

A Plausibility Description Logics for Reasoning with Information Sources Having Different Formats and Structures p. 46
Roles of Ontologies for Web Intelligence p. 55
Handling Semantic Inconsistencies in Distributed Knowledge Systems Using Ontologies p. 66
Structured Ontology and Information Retrieval for Email Search and Discovery p. 75

Learning and Knowledge Discovery

Conceptual Clustering of Heterogeneous Sequences via Schema Mapping p. 85
Is a Greedy Covering Strategy an Extreme Boosting? p. 94
Acquisition of a Knowledge Dictionary from Training Examples Including Multiple Values p. 103
Mining Bayesian Network Structure for Large Sets of Variables p. 114

Logic for Artificial Intelligence

Automatic Generation of Trivia Questions p. 123
Answering Queries Addressed to Several Databases: A Query Evaluator which Implements a Majority Merging Approach p. 131
Minimal Generalizations under OI-Implication p. 140
I-Search: A System for Intelligent Information Search on the Web p. 149

Knowledge Representation, Reasoning, Integration

Four-Valued Knowledge Augmentation for Representing Structured Documents p. 158
WISECON - An Intelligent Assistant for Buying Computers on the Internet p. 167
Basic Semantics of the Logic of Plausible Reasoning p. 176
Logic-Based Reasoning on Delegatable Authorizations p. 185

Intelligent Information Retrieval

Mixing Selections and Foreign Key Joins in Queries against Possibilistic Databases p. 194

Aggregates as Meta Functions p. 203
A Knowledge-Based Approach to Querying Heterogeneous Databases p. 213
Using User Profiles in Intelligent Information Retrieval p. 223

Learning and Knowledge Discovery

Computing Full and Iceberg Datacubes Using Partitions p. 244
A Dynamic Approach to Dimensionality Reduction in Relational Learning p. 255
Incremental and Dynamic Text Mining (Graph Structure Discovery and Visualization) p. 265
Logic for Artificial Intelligence
A Logic Framework for the Integration of Databases p. 274
Inference for Annotated Logics over Distributive Lattices p. 285
Disjunctive Logic Programs with Inheritance Revisited (A Preliminary Report) p. 294
Knowledge Constructions for Artificial Intelligence p. 303
Methodologies and Soft Computing
Validation and Reparation of Knowledge Bases p. 312
Automated Discovery of Decision Rule Chains Using Rough Sets and Medical Diagnostic Model p. 321
Inheriting Parents Operators: A New Dynamic Strategy for Improving Evolutionary Algorithms p. 333
Intelligent User Interfaces
An Intelligent Web Recommendation System: A Web Usage Mining Approach p. 342
Porphyry 2001: Semantics for Scholarly Publications Retrieval p. 351
Preprocessor to Improve Performance of GA in Determining Bending Process for Sheet Metal Industry p. 362
Knowledge Representation, Reasoning, Integration
Recognizing and Discovering Complex Events in Sequences p. 374
Why to Apply Generalized Disjunction-Free Generators Representation of Frequent Patterns? p. 383
Trading-Off Local versus Global Effects of Regression Nodes in Model Trees p. 393
Intelligent Information Systems
An Efficient Intelligent Agent System for Automated Recommendation in Electronic Commerce p. 403
Matching an XML Document against a Set of DTDs p. 412
Decision Tree Modeling with Relational Views p. 423
Learning and Knowledge Discovery
Discovering Sequential Association Rules with Constraints and Time Lags in Multiple Sequences p. 432
Mining Association Rules in Preference-Ordered Data p. 442
Unknown Attribute Values Processing by Meta-learner p. 451
Intelligent Information Retrieval
Intelligent Buffer Cache Management in Multimedia Data Retrieval p. 462
A Logical Formalization of Semistructured Data Models p. 472
Solving Travel Problems by Integrating Web Information with Planning p. 482
Methodologies
A Framework for Generating Task Specific Information Extraction Systems p. 491
A Formal Framework for Reasoning on UML Class Diagrams p. 503
A Biological Approach to the Development of Computer Autoimmune Systems p. 514
Intelligent User Interfaces
Adaptive Layout Analysis of Document Images p. 526
A NLG-Based Presentation Method for Supporting KDD End-Users p. 535
A Tool Supported Structured Method for Planning Domain Acquisition p. 544
Intelligent Information Systems
Probabilistic Aggregates p. 553
Samples for Understanding Data-Semantics in Relations p. 565
Cooperation of Multiple Strategies for Automated Learning in Complex Environments p. 574

Learning and Knowledge Discovery
Classifier Fusion Using Local Confidence p. 583
Feature Selection for Ensembles of Simple Bayesian Classifiers p. 592
Data Squashing for Speeding Up Boosting-Based Outlier Detection p. 601
Author Index p. 613
