Agile Innovations

Essence: Facilitating Agile Innovation p. 1
Scrum and Team Effectiveness: Theory and Practice p. 11
Misfit or Misuse? Lessons from Implementation of Scrum in Radical Product Innovation p. 21

Adaptation of Agile

Method Configuration: The eXtreme Programming Case p. 32
Adopting Agile in a Large Organisation p. 42
An Observational Study of a Distributed Card Based Planning Environment p. 53

Agile Testing and Assessment

The TDD-Guide Training and Guidance Tool for Test-Driven Development p. 63
JExample: Exploiting Dependencies between Tests to Improve Defect Localization p. 73
An Agile Development Process and Its Assessment Using Quantitative Object-Oriented Metrics p. 83

History and Evolution of Agile

Historical Roots of Agile Methods: Where Did “Agile Thinking” Come From? p. 94
Seven Years of XP - 50 Customers, 100 Projects and 500 Programmers - Lessons Learnt and Ideas for Improvement p. 104

People Factors in Agile Environments

Applying XP to an Agile-Inexperienced Software Development Team p. 114
Investigating the Usefulness of Pair-Programming in a Mature Agile Team p. 127

Conceptual Models of Agility

Just Enough Structure at the Edge of Chaos: Agile Information System Development in Practice p. 137
A Preliminary Conceptual Model for Exploring Global Agile Teams p. 147

Experience Reports

Scrum Implementation Using Kotter’s Change Model p. 161

AGILE ESTIMATION WITH MONTE CARLO SIMULATION p. 172

The Pomodoro Technique for Sustainable Pace in Extreme Programming Teams p. 180
Adopting Iterative Development: The Perceived Business Value p. 185
Explicit Risk Management in Agile Processes p. 190

Posters

Investigating the Role of Trust in Agile Methods Using a Light Weight Systematic Literature Review p. 204

Agile Practices in a Product Development Organization p. 208
The Story of Transition to Agile Software Development p. 212
Predicting Software Fault Proneness Model Using Neural Network p. 215
Multi-modal Functional Test Execution p. 218
Social Network Analysis of Communication in Open Source Projects p. 220
Toward Empowering Extreme Programming from an Architectural Viewpoint p. 222
A Metric-Based Approach to Assess Class Testability p. 224
Inside View of an Extreme Process  p. 226
To Track QA Work or Not; That Is the Question  p. 228
Build Notifications in Agile Environments  p. 230
Supporting Distributed Pair Programming with the COLLECE Groupware System: An  p. 232
Empirical Study

Workshops
Experience on the Human Side of Agile  p. 234
Retrospective Exploration Workshop  p. 236
Exposing the "Devils" within: Agile Taboos in a Large Organization  p. 238
BIOHAZARD - Engineering the Change Virus  p. 240
Architecture-Centric Methods and Agile Approaches  p. 242
Exploring Agile Coaching  p. 244
The Agile Technique Hour  p. 246
AOSTA: Agile Open Source Tools Academy  p. 248

Panels (Abstracts)
There's No Such Thing as Best Practice  p. 250
Culture and Agile: Challenges and Synergies  p. 251
Architecture and Agility Are Not Mutually Exclusive  p. 256
Author Index  p. 257
