Improving Expertise Recommender Systems by Odds Ratio  p. 1
Exploring the Stability of IDF Term Weighting  p. 10
Completely-Arbitrary Passage Retrieval in Language Modeling Approach  p. 22
Semantic Discriminative Projections for Image Retrieval  p. 34
Comparing Dissimilarity Measures for Content-Based Image Retrieval  p. 44
A Semantic Content-Based Retrieval Method for Histopathology Images  p. 51
Integrating Background Knowledge into RBF Networks for Text Classification  p. 61
An Extended Document Frequency Metric for Feature Selection in Text Categorization  p. 71
Smoothing LDA Model for Text Categorization  p. 83
Fusion of Multiple Features for Chinese Named Entity Recognition Based on CRF Model  p. 95

On the Construction of a Large Scale Chinese Web Test Collection  p. 117
Topic Tracking Based on Keywords Dependency Profile  p. 129
A Dynamic Programming Model for Text Segmentation Based on Min-Max Similarity  p. 141
Pronoun Resolution with Markov Logic Networks  p. 153
Job Information Retrieval Based on Document Similarity  p. 165
Discrimination of Ventricular Arrhythmias Using NEWFM  p. 176
Efficient Feature Selection in the Presence of Outliers and Noises  p. 184
Domain Adaptation for Conditional Random Fields  p. 192
Graph Mutual Reinforcement Based Bootstrapping  p. 203
Combining WordNet and ConceptNet for Automatic Query Expansion: A Learning Approach  p. 213

Improving Hierarchical Taxonomy Integration with Semantic Feature Expansion on Category-Specific Terms  p. 225
HOM: An Approach to Calculating Semantic Similarity Utilizing Relations between Ontologies  p. 237
A Progressive Algorithm for Cross-Language Information Retrieval Based on Dictionary Translation  p. 246
Semi-Supervised Graph-Ranking for Text Retrieval  p. 256
Learnable Focused Crawling Based on Ontology  p. 264
Gram-Free Synonym Extraction Via Suffix Arrays  p. 276
Synonyms Extraction Using Web Content Focused Crawling  p. 286
Blog Post and Comment Extraction Using Information Quantity of Web Format  p. 298
A Lexical Chain Approach for Update-Style Query-Focused Multi-document Summarization  p. 310
GSPSummary: A Graph-Based Sub-topic Partition Algorithm for Summarization  p. 321
An Ontology and SWRL Based 3D Model Retrieval System  p. 335
Multi-Scale TextTiling for Automatic Story Segmentation in Chinese Broadcast News  p. 345

Improving Spamdexing Detection Via a Two-Stage Classification Strategy  p. 356
Clustering Deep Web Databases Semantically  p. 365
PostingRank: Bringing Order to Web Forum Postings  p. 377
A Novel Reliable Negative Method Based on Clustering for Learning from Positive and Unlabeled Examples  p. 385
Term Weighting Evaluation in Bipartite Partitioning for Text Clustering  p. 393
A Refinement Framework for Cross Language Text Categorization  p. 401
Research on Asynchronous Communication-Oriented Page Searching  p. 412
A Novel Fuzzy Kernel C-Means Algorithm for Document Clustering  p. 418
Cov-HGEME: An Improved Hierarchical Clustering Algorithm  p. 424
Improve Web Image Retrieval by Refining Image Annotations  p. 430
Story Link Detection Based on Event Model with Uneven SVM  p. 436
Video Temporal Segmentation Using Support Vector Machine  p. 442
Using Multiple Combined Ranker for Answering Definitional Questions  p. 448
Route Description Using Natural Language Generation Technology  p. 454
Some Question to Monte-Carlo Simulation in AIB Algorithm  p. 460
An Opinion Analysis System Using Domain-Specific Lexical Knowledge  p. 466
A New Algorithm for Reconstruction of Phylogenetic Tree  p. 472
A Full Distributed Web Crawler Based on Structured Network  p. 478
A Simulated Shallow Dependency Parser Based on Weighted Hierarchical Structure Learning  p. 484
One Optimized Choosing Method of K-Means Document Clustering Center  p. 490
A Model for Evaluating the Quality of User-Created Documents  p. 496
Filter Technology of Commerce-Oriented Network Information  p. 502
IR Interface for Contrasting Multiple News Sites  p. 508
Real-World Mood-Based Music Recommendation  p. 514
News Page Discovery Policy for Instant Crawlers  p. 520
An Alignment-Based Approach to Semi-supervised Relation Extraction Including Multiple Arguments  p. 526
An Examination of a Large Visual Lifelog  p. 537
Automatic Acquisition of Phrase Semantic Rule for Chinese  p. 543
Maximum Entropy Modeling with Feature Selection for Text Categorization  p. 549
Active Learning for Online Spam Filtering  p. 555
Syntactic Parsing with Hierarchical Modeling  p. 561
Extracting Hyponymy Relation between Chinese Terms  p. 567
A No-Word-Segmentation Hierarchical Clustering Approach to Chinese Web Search Results  p. 573
Similar Sentence Retrieval for Machine Translation Based on Word-Aligned Bilingual Corpus  p. 578
An Axiomatic Approach to Exploit Term Dependencies in Language Model  p. 586
A Survey of Chinese Text Similarity Computation  p. 592
Study of Kernel-Based Methods for Chinese Relation Extraction  p. 598
Enhancing Biomedical Named Entity Classification Using Terabyte Unlabeled Data  p. 605
An Effective Relevance Prediction Algorithm Based on Hierarchical Taxonomy for Focused Crawling  p. 613
Short Query Refinement with Query Derivation  p. 620
