Invited Papers
Cases in Robotic Soccer p. 1
A Case-Based Framework for Collaborative Semantic Search in Knowledge Sifter p. 16
Usages of Generalization in Case-Based Reasoning p. 31
Research Papers
Team Playing Behavior in Robot Soccer: A Case-Based Reasoning Approach p. 46
Acquiring Word Similarities with Higher Order Association Mining p. 61
Label Ranking in Case-Based Reasoning p. 77
When Similar Problems Don't Have Similar Solutions p. 92
Mixed-Initiative Relaxation of Constraints in Critiquing Dialogues p. 107
A Methodology for Analyzing Case Retrieval from a Clustered Case Memory p. 122
Using Cases Utility for Heuristic Planning Improvement p. 137
Case-Based Reasoning Adaptation for High Dimensional Solution Space p. 149
Case-Based Planning and Execution for Real-Time Strategy Games p. 164
Case Authoring: From Textual Reports to Knowledge-Rich Cases p. 179
Case Provenance: The Value of Remembering Case Sources p. 194
Mining Large-Scale Knowledge Sources for Case Adaptation Knowledge p. 209
Representation and Structure-Based Similarity Assessment for Agile Workflows p. 224
Application of the Revision Theory to Adaptation in Case-Based Reasoning: The Conservative Adaptation p. 239
Methodological Assistance for Integrating Data Quality Evaluations into Case-Based Reasoning Systems p. 254
Case-Based Anomaly Detection p. 269
Case-Based Reasoning in Robot Indoor Navigation p. 284
Case-Based Group Recommendation: Compromising for Success p. 299
Catching the Drift: Using Feature-Free Case-Based Reasoning for Spam Filtering p. 314
Enhancing Case-Based, Collaborative Web Search p. 329
An Analysis of Case-Based Value Function Approximation by Approximating State Transition Graphs p. 344
From Anomaly Reports to Cases p. 359
Assessing Classification Accuracy in the Revision Stage of a CBR Spam Filtering System p. 374
Application Papers
Intelligent Guidance and Suggestions Using Case-Based Planning p. 389
Case-Based Reasoning for Invoice Analysis and Recognition p. 404
Watershed Segmentation Via Case-Based Reasoning p. 419
A Case-Based Song Scheduler for Group Customised Radio p. 433
Helping Software Engineers Reusing UML Class Diagrams p. 449
Failure Analysis for Domain Knowledge Acquisition in a Knowledge-Intensive CBR System p. 463
Classify and Diagnose Individual Stress Using Calibration and Fuzzy Case-Based Reasoning p. 478
Prototypical Cases for Knowledge Maintenance in Biomedical CBR p. 492
