International Workshop on Approaches and Architectures for Web Data Integration and Mining in Life Sciences (WebDIM4LS)

Workshop PC Chairs’ Message p. 3
QDex: A Database Profiler for Generic Bio-data Exploration and Quality Aware Integration p. 5
ProtocolDB: Storing Scientific Protocols with a Domain Ontology p. 17
An Ontology-Driven Annotation of Data Tables p. 29
Using Ontology with Semantic Web Services to Support Modeling in Systems Biology p. 41
Data in Astronomy: From the Pipeline to the Virtual Observatory p. 52

International Workshop on Collaborative Knowledge Management for Web Information Systems (WEKnow)

Workshop PC Chairs’ Message p. 65
How Do Users Express Goals on the Web? - An Exploration of Intentional Structures in Web Search p. 67
Publishing and Sharing Ontology-Based Information in a Collaborative Multimedia Document Management System p. 79
Sequence Disunification and Its Application in Collaborative Schema Construction p. 91
Mapping Metadata for SWHi: Aligning Schemas with Library Metadata for a Historical Ontology p. 103

International Workshop on Governance, Risk and Compliance in Web Information Systems (GDR)

Workshop PC Chairs’ Message p. 117
Conceptual Model of Risk: Towards a Risk Modelling Language p. 118
A Critical Analysis of Latest Advances in Building Trusted P2P Networks Using Reputation Systems p. 130
Deriving XACML Policies from Business Process Models p. 142
Enforcing Policies and Guidelines in Web Portals: A Case Study p. 154
Workflow Abstraction for Privacy Preservation p. 166
Using Control Patterns in Business Processes Compliance p. 178
A Framework for Evidence Lifecycle Management p. 191
Collaboration for Human-Centric eGovernment Workflows p. 201

International Workshop on Human-Friendly Service Description, Discovery and Matchmaking (Hf-SDDM)

Workshop PC Chairs’ Message p. 215
How to Create a WSMO-Based Semantic Service Without Knowing WSML p. 217
Goal-Based Visualization and Browsing for Semantic Web Services p. 236
Agile Elicitation of Semantic Goals by Wiki p. 248
User-Friendly Semantic Annotation in Business Process Modeling p. 260
Semantic Web Service Discovery for Business Process Models p. 272

International Workshop on Personalized Access to Web Information (PAWI)

Workshop PC Chairs’ Message p. 299
User Modeling for Attending Functional Diversity for ALL in Higher Education p. 301
Exploiting Profile Modeling for Web-Based Information Systems p. 313
Learning Implicit User Interests Using Ontology and Search History for Personalization

Contextual User Profile for Adapting Information in Nomadic Environments

A Contextual User Model for Web Personalization

Citation-Based Methods for Personalized Search in Digital Libraries

Personalized Information Access Through Flexible and Interoperable Profiles

A Tool for Statistical Analysis of Navigational Modelling for Web Site Personalization and Reengineering

"Watch the Document on the Wall!" An Analytical Model for Health Care Documents on Large Displays

International Workshop on Web Usability and Accessibility (IWWUA)

Workshop PC Chairs' Message

Incremental Quality Improvement in Web Applications Using Web Model Refactoring

Inclusive Usability Techniques in Requirements Analysis of Accessible Web Applications

A Visual Ontology-Driven Interface for a Web Sign Language Dictionary

Improvement of a Web Engineering Method Through Usability Patterns

Flex RIA Development and Usability Evaluation

Usability and Accessibility Evaluations Along the eLearning Cycle

Web Accessibility Evaluation Via XSLT

Analyzing Tool Support for Inspecting Accessibility Guidelines During the Development Process of Web Sites

Quality of Web Usability Evaluation Methods: An Empirical Study on MiLE+

An Assessment of the Currency of Free Science Information on the Web

Including Routes in Web Information Systems as a Way to Improve the Navigability: An Empirical Study

A Generic Approach to Improve Navigational Model Usability Based Upon Requirements and Metrics
