Invited Talks
Swarms of Self-assembling Robots p. 1
Complex Systems and Agent-Oriented Software Engineering p. 3
Engineering Self-organizing Applications
A Characterization of Key Properties of Environment-Mediated Multiagent Systems p. 17
Toward Systemic MAS Development: Enforcing Decentralized Self-organization by Composition and Refinement of Archetype Dynamics p. 39
Engineering Systems Which Generate Emergent Functionalities p. 58
Engineering Autonomic Electronic Institutions p. 76
Stigmergic Interaction
Prediction Horizons in Agent Models p. 88
Combining Interface Agents and Situated Agents for Deploying Adaptive Web Applications p. 103
Modeling and Structuring Mediating Environments
Situating Cognitive Agents in GOLEM p. 115
Modeling Agent-Environment Interactions in Adaptive MAS p. 135
DECIDE: Applying Multi-agent Design and Decision Logic to a Baggage Handling System p. 148
Environment-Based Support for Context and Organizations
Managing Agent Interactions with Context-Driven Dynamic Organizations p. 166
Modeling and Design of an Agent-Based Micro-simulation of the Swiss Highway Network p. 187
Environment Support to the Management of Context Awareness Information p. 204
Engineering Contextual Information for Pervasive Multiagent Systems p. 223
Engineering Business Ecosystems Using Environment-Mediated Interactions p. 240
Experimenting with Language Support for Proximity in Ambient-Oriented Programming p. 259
Environment-Supported Roles to Develop Complex Systems p. 284
Author Index p. 297
