Introduction - New Methods and Technologies of Natural Sciences for Archaeological Investigations in Nasca and Palpa, Peru

Geoarchaeology

Man and Environment in the Eastern Atacama Desert (Southern Peru): Holocene Climate Changes and Their Impact on Pre-Columbian Cultures

Built on Sand: Climatic Oscillation and Water Harvesting During the Late Intermediate Period

Geophysics

Beneath the Desert Soil - Archaeological Prospecting with a Caesium Magnetometer

Quantum Detection Meets Archaeology - Magnetic Prospection with SQUIDs, Highly Sensitive and Fast

Viewing the Subsurface in 3D: Sediment Tomography for (Geo-)Archaeological Prospection in Palpa, Southern Peru

The Field of Sherds: Reconstructing Geomagnetic Field Variations from Peruvian Potsherds

Bioarchaeology

From Hunters to Regional Lords: Funerary Practices in Palpa, Peru

Talking Bones: Bioarchaeological Analysis of Individuals from Palpa

Who Were the Nasca? Population Dynamics in Pre-Columbian Southern Peru Revealed by Ancient DNA Analyses

Humans and Camelids in River Oases of the Ica-Palpa-Nazca Region in Pre-Hispanic Times - Insights from H-C-N-O-S-Sr Isotope Signatures

The Nasca and Their Dear Creatures - Molecular Genetic Analysis of Pre-Columbian Camelid Bones and Textiles

Archaeochronometry

Of Layers and Sherds: A Context-Based Relative Chronology of the Nasca Style Pottery from Palpa

The Clock in the Corn Cob: On the Development of a Chronology of the Paracas and Nasca Period Based on Radiocarbon Dating

Cold Light from the Sediments of a Hot Desert: How Luminescence Dating Sheds Light on the Landscape Development of the Northeastern Atacama

Light Thrown on History - The Dating of Stone Surfaces at the Geoglyphs of Palpa Using Optically Stimulated Luminescence

Geomatics

Virtual Archaeology - New Methods of Image-Based 3D Modeling

Virtual Flight Over the Nasca Lines - Automated Generation of a Photorealistically Textured 3D Model of the Pampa de Nasca

Context Matters: GIS-Based Spatial Analysis of the Nasca Geoglyphs of Palpa

A Model Helicopter Over Pinchango Alto - Comparison of Terrestrial Laser Scanning and Aerial Photogrammetry

Perspectives and Contrasts: Documentation and Interpretation of the Petroglyphs of Chichictara, Using Terrestrial Laser Scanning and Image-Based 3D Modeling

Pottery Plotted by Laser - 3D Acquisition for Documentation and Analysis of Symmetry of Ancient Ceramics

Archaeometallurgy

Gold in Southern Peru? Perspectives of Research into Mining Archaeology
