Technologies to Manage Health Care Procedural Knowledge

Operationalizing Prostate Cancer Clinical Pathways: An Ontological Model to Compute, Merge and Execute Institution-Specific Clinical Pathways   p. 1

An Autonomous Algorithm for Generating and Merging Clinical Algorithms   p. 13

OncoTheraper: Clinical Decision Support for Oncology Therapy Planning Based on Temporal Hierarchical Tasks Networks   p. 25

Modeling Clinical Protocols Using Semantic Media Wiki: The Case of the Oncocure Project   p. 42

Methodologies to Manage Health Care Procedural Knowledge

A Conceptual Framework for Ontology Based Automating and Merging of Clinical Pathways of Comorbidities 55

Can Physicians Structure Clinical Guidelines? Experiments with a Mark-Up-Process Methodology   p. 67

Modeling the Form and Function of Clinical Practice Guidelines: An Ontological Model to Computerize Clinical Practice Guidelines   p. 81

User-Centered Evaluation Model for Medical Digital Libraries   p. 92

Computer Systems to Manage Health Care Procedural Knowledge

Automatic Tailoring of an Actor Profile Ontology   p. 104

A Methodological Specification of a Guideline for Diagnosis and Management of PreEclampsia   p. 123

Home Care Personalisation with Individual Intervention Plans   p. 134

Electronic Health Record as a Knowledge Management Tool in the Scope of Health   p. 152

Author Index   p. 167
