Co-innovation in Collaborative Networks

Networked Innovation in Innovation Networks: A Home Appliances Case Study  p. 3
Managing Distributed Innovation Processes in Virtual Organizations by Applying the Collaborative Network Relationship Analysis  p. 13
A Balanced Scorecard for Open Innovation: Measuring the Impact of Industry-University Collaboration  p. 23
Co-creation and Co-innovation in a Collaborative Networked Environment  p. 33

Collaboration Patterns

A Cooperative Model to Improve Hospital Equipments and Drugs Management  p. 43
Modeling Adaptable Business Service for Enterprise Collaboration  p. 51
A Collaboration Pattern Model for Virtual Organisations  p. 61
Issues and Experiences in Logistics Collaboration  p. 69

Needs and Practices

Analyzing Enterprise Networks Needs: Action Research from the Mechatronics Sector  p. 79

Comparing Notes: Collaborative Networks, Breeding Environments, and Organized Crime  p. 88
Mapping R&D; within Multinational Networks: Evidence from the Electronics Industry p. 96

Collaboration in Supply Chains

Developing a Taxonomy and Model to Transfer and Assess Best Practices for Supply Chain Management  p. 109
Supply Chain Coordination in Hospitals  p. 117
A Supply Chain Architecture Based on Multi-agent Systems to Support Decentralized Collaborative Processes  p. 128
Collaborative Manufacturing Management in Networked Supply Chains  p. 136

Teams and Collaboration

Collaborative Capability of Teams in Network Organizations  p. 149
Knowledge Value Creation Characteristics of Virtual Teams: A Case Study in the Construction Sector  p. 157
Social Protocols for Agile Virtual Teams  p. 168
Analysis of Interpersonal Communication Processes in Digital Factory Environments  p. 177

VO Breeding Environments Modeling

Modeling Virtual Organization Architecture with the Virtual Organization Breeding Methodology  p. 187
For a Methodology to Implement Virtual Breeding Environments - A Case Study in the Mold and Die Sector in Brazil  p. 197
Virtual Operations in Common Information Spaces: Boundary Objects and Practices  p. 207
An Alignment Model for Collaborative Value Networks  p. 217

Modeling and Managing Competencies - I

Competence-Based Approach in Value Chain Processes  p. 227
Towards a Methodology for Managing Competencies in Virtual Teams - A Systemic Approach  p. 235

An Organization's Extended (Soft) Competencies Model  p. 245
Modeling and Managing Competencies - II
A Generic Framework of Performance Measurement in Networked Enterprises p. 259
Transferability of Industrial Management Concepts to Healthcare Networks p. 266
People at Work: Modelling Human Performance in Shop Floor for Process Improvement in Manufacturing Enterprises p. 274
Competence Ontology for Network Building p. 282
Knowledge Management in Collaboration Knowledge Management with Snapshots p. 293
Short-Term Semantic Consensus: Towards Agile Ontology Specification for Collaborative Networks p. 301
Ontological View-Driven Semantic Integration in Collaborative Networks p. 311
Partners Selection
Uncertainty in Partner Selection for Virtual Enterprises p. 321
Supplier Selection in Virtual Enterprise Model of Manufacturing Supply Network p. 331
Design and Implementation of a Multi-agent Framework for the Selection of Partners in Dynamic VEs p. 341
e-Procurement and Collaborative Procurement
Collaborative Procurement within Enterprise Networks: A Literature Review, a Reference Framework and a Case Study p. 351
eProcurement for Industrial Maintenance Services p. 361
Guide to a Strategic Procurement Planning Approach on Regulated Commodity Markets p. 369
Trust and Soft Issues in Collaboration
On Hard and Soft Models to Analyze Trust Life Cycle for Mediating Collaboration p. 381
Trust Building in Virtual p. 393
Value Co-creation and Co-innovation: Linking Networked Organisations and Customer Communities p. 401
Processes and Decision
Supporting Cross-Organizational Process Control p. 415
A Service for Robust Decision Downloading in Collaborative Networks p. 423
A Practice-Based Analysis of an Online Strategy Game p. 433
An Anticipative Effects-Driven Approach for Analyzing Interoperability in Collaborative Processes p. 441
Management Aspects in Collaborative Networks
On Services for Collaborative Project Management p. 451
Managing Decisions on Changes in the Virtual Enterprise Evolution p. 463
An SSM-Based Approach to Implement a Dynamic Performance Management System p. 476
Performance Management
Performance Based Maintenance Scheduling for Building Service Components p. 487
An Approach to Measuring the Performance of a Large-Scale Collaboration p. 495
Reference Model for Performance Management in Service-Oriented Virtual Organization Breeding Environments p. 505
Agile Business Models
Thinking Outside the Box: Agile Business Models for CNOs p. 517
