Human-Computer Interaction: Cognitive and Computational Issues

Interaction and Resistance: The Recognition of Intentions in New Human-Computer Interaction

Speaking without Thinking: Embodiment, Speech Technology and Social Signal Processing

More Than Words: Inference of Socially Relevant Information from Nonverbal Vocal Cues in Speech

A Timely Endeavor: Theoretical, Behavioral, Bioimaging, and Clinical Perspectives on Time Perception

Instruction and Belief Effects on Sentential Reasoning

Audio-Visual Prosody: Perception, Detection, and Synthesis of Prominence

Adaptation in Turn-Initiations

Sentic Avatar: Multimodal Affective Conversational Agent with Common Sense

Patterns of Synchronization of Non-verbal Cues and Speech in ECAs: Towards a More Natural Conversational Agent

Top-Down Influences on Eye-Movements during Painting Perception: The Effect of Task and Titles

Visual Sociology in the Classroom: Fostering Interaction Awareness Using Video

Analysis of Interrogatives in Different Domains

Interviewers' Use of Coercive Questioning during a Midterm Period Favorable to the Opposition Party

Emotions and Speech Disorders: Do Developmental Stutters Recognize Emotional Vocal Expressions?

Representing Meaning in Mind: When Predicate Argument Structures Meet Mental Representations

Beyond the Panopticon Framework: Privacy, Control and User Generated Content

Micro and Macro Spatial Dimensions of New Media in Five European Countries

Nonverbal Expressions of Turn Management in TV Interviews: A Cross-Cultural Study between Greek and Icelandic

Synchrony through Verbal and Nonverbal Signals

Interpretation and Generation of Dialogue with Multidimensional Context Models

Coordination, Not Control, Is Central to Movement

Speech, Gaze and Head Motion in a Face-to-Face Collaborative Task

Neuroelectric Methodologies for the Study of the Economic Decisions in Humans

An Evaluation Study on Speech Feature Densities for Bayesian Estimation in Robust ASR

Naturalness, Adaptation and Cooperativeness in Spoken Dialogue Systems

Towards Semantic Multimodal Video Annotation

The Effect of Subharmonic Stimuli on Singing Voices

Speech Modeling Using the Complex Cepstrum

Problems of the Automatic Emotion Recognitions in Spontaneous Speech; An Example for the Recognition in a Dispatcher Center

Slovak Language Model from Internet Text Data

Automatic Recognition of Emotional State in Polish Speech

Categorical Perception of Consonants and Vowels: Evidence from a Neurophonetic Model of Speech Production and Perception
The MultiLis Corpus-Dealing with Individual Differences in Nonverbal Listening Behavior
Comparing the Rhythmical Characteristics of Speech and Music - Theoretical and Practical Issues
The Ability of Children with Mild Learning Disabilities to Encode Emotions through Facial Expressions
Designing a Hungarian Multimodal Database - Speech Recording and Annotation
Conveying Directional Gaze Cues to Support Remote Participation in Hybrid Meetings
Affect Recognition in Real Life Scenarios
Understanding Parent-Infant Behaviors Using Non-negative Matrix Factorization
Learning and Knowledge-Based Sentiment Analysis in Movie Review Key Excerpts
