Comparison of SDS-PAGE and Immunoblotting with Polyclonal and Monoclonal Anti-human Albumin Sera for the Detection of Urinary Polymers of Albumin

Urinary Proteins and Enzymes to Detect Kidney Damage

An Immunoassay Method for the Determination of Rat Retinol-Binding Protein in Serum and Urine

Urinary Endopeptidase 24.11 as a New Marker of Proximal Tubular Injury. Preliminary Study in Kidney Transplant Recipients

Renal Fibronectin Excretion as a Marker for Renal Environmental Toxins

Immunoluminometric Assay: A New Method for Estimation of Urinary Proteins after Renal Transplantation

Hyperoxaluria. Enzymuria and Nephrolithiasis

Protease Inhibitory Activity in Serum and Urine following Extracorporeal Shock Wave Lithotripsy

Renal Handling and Nephrotoxicity of Drugs and Contrast Media

Possible Role of Altered Polyamine Metabolism in Gentamicin Toxicity in OK Cells

Immunohistochemical Study of Epidermal Growth Factor in the Rat Kidney after Gentamicin-Induced Tubular Injury

Co-Oxydextran as a Protectant against Gentamicin-Induced Renal Lysosomal Phospholipidosis and Focal Tubular Necrosis. Perspectives and Limitations

Proteinuria and Progression of Chronic Adriamycin Nephropathy

Use of Renal Epithelial Cell Lines for Testing Cellular Toxicity

The Functional Effects of Contrast Media on the Isolated Perfused Rat Kidney

Renal Effects and Nephrotoxicity of Contrast Media in Renal Patients

Contrast Media Nephrotoxicity: Urinary Protein and Enzyme Pattern in Patients with or without Saline Infusion during Digital Subtracting Angiography

Role of Reactive Oxygen Species in the Development of Glomerular Injury
