Preface

Cochlear Implants: Past, Present and Future p. 1
Responses from Single Units in the Dorsal Cochlear Nucleus to Electrical Stimulation of the Cochlea p. 4
A Study of Monopolar and Bipolar Stimulation Modes with a Modified Nucleus Mini-22 Cochlear Implant p. 9
Three-Dimensional Reconstruction of the Cochlea and Temporal Bone p. 17
Place of 3DFT-MR Imaging Study on Cochlear Implant Candidates p. 23
Auditory Cortex Activities in Severely Hearing-Impaired and Cochlear Implant Patients. Positron Emission Tomographic Study p. 29
Steady State Evoked Potentials: A New Tool for the Accurate Assessment of Hearing in Cochlear Implant Candidates p. 44
Multichannel Implants in Postmeningitic Ossified Cochleas p. 49
Surgical Difficulties with Cochlear Implants p. 59
Intracochlear Electrode Placement Facilitated by Healon p. 62
Problems in Cochlear Implant Surgery p. 65
Surgical Complications of Multichannel Cochlear Implants in North America p. 70
Implant Generated Surface Potentials and (Partial) Device Failures of the Nucleus Cochlear Implant p. 75
Comparative Reliability of Cochlear Implants p. 79
Comparison of Current Speech Coding Strategies p. 85
A Hybrid Coding Strategy for a Multichannel Cochlear Implant p. 91
Significance of the Promontory Test: Histological and Electrical Results p. 97
Preoperative Electrical Nerve Stimulations as One of the Criteria for Selection p. 103
Ear Canal Electrodes versus Promontory Electrodes in Preoperative Electrical Stimulation for Cochlear Implant Selection p. 108
Is the Round-Window Electrical Test Possible in Children? p. 114
Brain Stem Evoked Responses by Intracochlear Electric Stimulation p. 120
Auditory Brain Stem Response Evoked by Electrical Stimulation with a Cochlear Implant p. 125
Electrical Brain Stem Responses in Cochlear Implant Patients p. 130
Application of Intraoperative Recordings of Electrically Evoked ABRs in a Paediatric Cochlear Implant Programme p. 136
Predictive Factors in Cochlear Implant Surgery p. 142
Prognostic Factors in 187 Adults Provided with the Nucleus Cochlear Mini-System 22 p. 146
Multivariate Predictors of Success with Cochlear Implants p. 153
Tinnitus Suppression in Cochlear Implant Users p. 168
Sound Localization with the Ineraid Cochlear Implant p. 174
Cochlear Implantation in the Deaf Blind p. 177
Ethical and Medico-legal Aspects of Multichannel Cochlear Implantation in Children p. 182
