The use of geochemical methods in the investigation of hazardous waste sites in covered p. 235 karst terrain

Acid mine drainage in karst terranes: Geochemical considerations and field observations p. 241

Is closure-in-place a suitable remedy for unlined landfills in sinkholes? p. 249

Sinkhole collapse and ground water contamination problems resulting from storm water drainage wells on karst terrain p. 257

Sinkhole treatment to improve water quality and control erosion in southeastern Minnesota p. 265

Modification of highway runoff quality by sinkhole drainage structures, Highway 37 improvement project Lawrence County, Indiana p. 273

Storm-water management and sinkhole occurrence in the Palmyra area, Lebanon County, Pennsylvania p. 285

Investigation of sinkhole flooding problems in Knoxville, Tennessee p. 291

Management of the discharge quality of highway runoff in karst areas to control impacts to ground water - A review of relevant literature p. 297

Karst site remediation grouting p. 325

Maryland Route 31 sinkhole p. 331

A model for sinkhole formation on interstate and limited access highways, with suggestions on remediation p. 335

Techniques to investigate and remedy sinkholes p. 341

Risk and reward: Pipes and sinkholes in East Tennessee p. 349

Static and seismic stability of residual soils over a bedrock cavity p. 357

Karst foundation grouting and seepage control at Haig Mill Dam p. 363

Drilled pile foundations in porous, pinnacled carbonate rock p. 371

The importance of a model in foundation design over deeply-weathered, pinnacled, carbonate bedrock p. 375

A case history of compaction grouting to improve soft soils over karstic limestone p. 383

Cap reinforcement over a sinkhole as part of a landfill closure p. 389

Design against collapse of karst caverns p. 397

Subsurface investigation of possible karst conditions at the Jewish Creek bridge replacement, Key Largo, Florida p. 409

The application of thermal infrared thermography in the identification of submerged springs in Chickamauga Reservoir, Hamilton County, Tennessee p. 415

Application of the natural electric field for detecting karst conduits on Guam p. 425

Mapping karst solution features by the integrated geophysical method p. 443

Clay over karst: Dealing with construction over an eroded and broken karst surface p. 453

Engineering experience with limestone p. 463

Engineering impacts of karst: Three engineering case studies in Cambrian and Ordovician carbonates of the Valley and Ridge Province p. 469

The problems of constructions on karst - The examples from Slovenia p. 475

Paleokarstic features in the Belgian carboniferous limestones - Implications to engineering p. 481

Caves as a geologic hazard: A quantitative analysis from San Salvador Island, Bahamas p. 487
