Land use and carbonate island karst p. 3
Groundwater discharge styles from an uplifted Pleistocene island karst aquifer, Guam, Mariana Islands p. 15
Preliminary assessment of the role of suckwells in karst water resources p. 21
Mechanics of formation of cover-collapse sinkholes p. 29
Sinkhole case study: Athletic fields, Lafayette College, Easton, Pennsylvania p. 37
Cover-collapse sinkholes in the 'Tournaïs' area, southern Belgium p. 41
The Pennsylvania sinkhole inventory: Design and application in a relational database p. 49
Assessing the risk of cave-collapse sinkholes using analogous information from mining p. 55
Stratigraphy and hydrogeology of a submarine collapse sinkhole on the continental shelf, northeastern Florida p. 61
Overflow conduit systems in Kentucky: A consequence of limited underflow capacity p. 69
Rationale and methodology for approximating spring-basin boundaries in the mantled karst terrane of the Springfield Plateau, northwestern Arkansas p. 77
Modeling losses from streams in karst areas p. 83
Allogenic recharge to karst from valley-train alluvium and colluvium in the central Appalachian Region p. 89
Karst research in Romania: Geological and hydrogeologic setting of Bihor Mountains p. 97
Evaporite karst in the western part of the Holbrook Basin, Arizona p. 107
Gypsum karst geohazards in China p. 117
Planning for gypsum geohazards in Lithuania and England p. 127
Control of naturally occurring brine springs and seeps in an evaporite karst setting p. 137
Mapping water-supply protection areas for leaky, perched karst groundwater systems p. 153
Findings from MOU-related karst studies for Indiana State Road 37, Lawrence County, Indiana p. 157
Highway stormwater runoff in karst areas - Preliminary results of baseline monitoring and design of a treatment system for a sinkhole in Knoxville, Tennessee p. 173
Laboratory testing of a system to treat highway stormwater in karst areas p. 183
Contaminant transport in karst aquifers p. 189
A sampling plan for conduit-flow karst springs: Minimizing sampling cost and maximizing statistical utility p. 193
Source identification investigations of petroleum contaminated groundwater in the Missouri Ozarks p. 199
Groundwater tracing in the epikarst p. 207
Some developments in fluorometric tracing of ground water p. 213
Modelling the in-situ neutralization capacity of a karst aquifer for remediation of acid mine drainage p. 219
Wellfield site selection and groundwater flow model construction of the karst area in Lake City, Columbia County, Florida p. 227
Insect parts, muddy water, and new sinkholes: Not necessarily fatal flaws to water well permitting in karst p. 235
Meeting the requirements of the wellhead protection program for three large springs in east Tennessee p. 239
Deep zone karst aquifers as a boon in central India p. 245
Comparison of stormwater management techniques in a karst terrane in Springfield, Missouri p. 253
Ground water basin delineation for sinkhole flood prevention, Johnson City, Tennessee p. 259
Sinkhole and drainage planning in Johnson City, Tennessee p. 265
Submergence of the Banwen underground river by the Yantan Reservoir and subsequent flooding disasters p. 273
Site characterization for sinkholes in Pennsylvania and New Jersey p. 281
Wyndham Farms - A karst case history p. 287
Urbanization in karst sinkhole terrain - A St. Louis perspective p. 293
Sinkhole damage investigations for the insurance industry in west-central Florida p. 299
Delineation of sinkhole boundary using Dutch cone soundings p. 305
Designing foundations around sinkholes p. 313
Foundation remedies for residential construction over karst limestone in Nashville, Tennessee p. 319
Sinkhole investigation: An on-going case study in Kuwait p. 329
Sinkholes in karst mining areas in China and some methods of prevention p. 351
Mine-induced sinkholes over the US Strategic Petroleum Reserve (SPR) storage facility at Weeks Island, Louisiana: Geologic mitigation and environmental monitoring p. 357
The hole story: How a sinkhole in a phosphogypsum pile was explored and remediated p. 363
Evaluation of antikarst protection efficiency p. 371
Planning the replacement of the Beards Creek Bridge p. 373
An example of the use of jet grouting to permit tunneling in chemically weathered limestone p. 381
A geologic evaluation: The first step in land use planning in Stone County, Missouri p. 389
Modeling of a cave ecosystem p. 395
Hazard mapping of karst along the coast of the Algarve, Portugal p. 401
Construction of a karst hazard map of the Russian Federation at 1:5,000,000 scale p. 409
Diphole-diphole D.C. resistivity surveying for exploration of karst features p. 413
Detecting caves using seismic surface waves: A feasibility study p. 419
Geophysical and geotechnical evaluation in support of siting a federal prison facility in mature developed karst - A case study p. 425
Interstate assessment of governmental regulations on landfills in karst areas p. 433
Studies and regulations in the Southwestern Illinois karst p. 439
Bacterial contamination of groundwater from private septic systems in Illinois' sinkhole plain: Regulatory considerations p. 443
