Drugs in Old Age
New Perspectives

Scientific Editors: M J Denham and C F George

Introduction
J Williamson 1

Pharmacokinetics in old age
B F Tregaskis & I H Stevenson 9

Hepatic drug metabolism and ageing
K W Woodhouse & O F W James 22

Pharmacodynamics: Changes in homeostatic mechanisms, receptor and target organ sensitivity in the elderly
C G Swift 36

Adverse drug reactions
M J Denham 53

Medicine taking by people aged 65 or more
A Cartwright 63

Benefits of antihypertensive therapy in the elderly
J F Potter & R A Haigh 77

Osteoporosis
W J MacLennan 94

Treatment of post herpetic neuralgia in the elderly
D R C Robertson & C F George 113

Drug therapy for Parkinson's disease in the elderly
D R C Robertson & C F George 124

Pharmacological treatment of urinary incontinence
T M Battcock & C M Castleden 147

Factors modifying the use of anesthetic drugs in the elderly
R M Ward & P Hutton 156

Treatment of the classical manifestations of dementia and confusion
L J Whalley & J Bradnock 169

Drug therapy in patients with recent stroke
G D Harper & C M Castleden 181

Treatment of heart failure in the elderly
J McMurray & D G McDevitt 202

Assessment and treatment of obstructive airways disease in the elderly
L Dow & S T Holgate 230

Large bowel problems
R G Smith 246

Pain control and the use of non-steroidal analgesic anti-inflammatory drugs
G Nuki 262

Control of pain in terminal cancer
R Hillier 279
