Contents

Preface iii
Contributors vii

1. Controlled Release of Bioactive Agents from Lactide/Glycolide Polymers 1
   Danny H. Lewis

2. Polyanhydrides as Drug Delivery Systems 43

3. Poly-ε-Caprolactone and Its Copolymers 71
   Colin G. Pitt

4. Poly(ortho esters) 121
   Jorge Heller, Randall V. Sparer, and Gaylen M. Zentner

5. Polyphosphazenes as New Biomedical and Bioactive Materials 163
   Harry R. Allcock

6. Pseudopoly( amino acids) 195
   Joachim Kohn
7. Natural Polymers as Drug Delivery Systems  
   Simon Bogdansky  
   231

8. Liposomes  
   Ulla K. Nässander, Gert Storm, Pierre A. M. Peeters,  
   and Daan J. A. Crommelin  
   261
