Contents

Contributors ............................................................... vii
Preface ........................................................................... ix

Chapter 1: Benzodiazepine Receptors and their Ligands ........ 1
Richards, G., Schoch, P. and Jenck, F.

Chapter 2: The 5-HT Receptor Family: Ligands, Distribution
and Receptor-Effecter Coupling ................................. 31
Hoyer, D.

Chapter 3: Anxiolytic Effects of 5-HT1A Agonists, 5-HT3
Antagonists and Benzodiazepines: Conflict and Drug
Discrimination Studies .................................................. 59
Barrett, J.E. and Gleeson, S.

Chapter 4: Anxiolytic Effects of Benzodiazepines and 5-HT1A
Agonists: Animal Models ............................................ 107
Treit, D.

Chapter 5: Anxiolytic Effects of 5-HT3 Antagonists in Animals
Costall, B. and Naylor, R.J. ............................................ 133

Chapter 6: Effects of Benzodiazepines, 5-HT1A Agonists and 5-
HT3 Antagonists in Animal Models Sensitive to
Antidepressant Drugs .................................................... 159
Thiébot, M.-H. and Martin, P.

Chapter 7: Effects of Benzodiazepine and 5-HT Receptor
Ligands on Aggression and Defence in Animals .......... 195
Rodgers, R.J.

Chapter 8: Ingestional Responses Following Benzodiazepine
Receptor Ligands, Selective 5-HT1A Agonists and Selective
5-HT3 Receptor Antagonists ....................................... 233
Cooper, S.J.
Chapter 9: The Effects of Benzodiazepines and 5-HT$_{1A}$ Agonists on Learning and Memory. ........................................ 267
Lister, R.G.

Chapter 10: Physiological and Pharmacological Implications of Specific Effects of 5-HT$_{1A}$ Agonists on Rat Sexual Behaviour ............................................................ 281
Ahlenius, S. and Larsson, K.

Chapter 11: Abuse Liability of Benzodiazepines and 5-HT$_{1A}$ Agonists ................................................................. 317

Chapter 12: Benzodiazepines and Novel Anxiolytics: Clinical Pharmacology, Dependence and Withdrawal .................. 343
Lader, M.H.

Chapter 13: Serotonergic Anxiolytics: a Review of Their Clinical Efficacy ................................................................. 365
Schweizer, E. and Rickels, K.
