Peptide Drug Delivery
to the Brain

William M. Pardridge, M.D.

Professor of Medicine
Department of Medicine
and Brain Research Institute
UCLA School of Medicine
Los Angeles, California

Raven Press  New York
Contents

Preface ix

1. Biological Diversity of Peptides 1

2. Peptides as Potential Neuropharmaceuticals in Disorders of the Brain 23

3. Overview of Blood-Brain Barrier Transport Biology and Experimental Methodologies 52

4. Transnasal and Intraventricular Delivery of Drugs 99

5. Peptide Lipidization and Liposomes 123

6. Bulk Flow and Receptor-Mediated Transcytosis of Peptides Through the Blood-Brain Barrier 149

7. Absorptive-Mediated Transcytosis of Peptides Through the Blood-Brain Barrier 189

8. Antibody Delivery Through the Blood-Brain Barrier 219

9. Chimeric Peptide Pharmaceutical Delivery Through the Blood-Brain Barrier 239

10. Development of Brain-Specific Transport Vectors: A Molecular Biological Perspective 280
