Contents

Introduction to the Series v
Foreword Irwin M. Arias vii
Preface ix

I. Asialoglycoproteins and Their Receptors

1. Trafficking of Asialoglycoproteins and the Asialoglycoprotein Receptor 3
   Alan L. Schwartz

2. Structural Characteristics and Regulation of the Asialoglycoprotein Receptor 41
   Richard J. Stockert, Anatol G. Morell, and Gilbert Ashwell

3. Ligand Structural Requirements for Recognition and Binding by the Hepatic Asialoglycoprotein Receptor 65
   Reiko T. Lee

4. Targeting of Liposomes to Hepatocytes 87
   Prahlad C. Ghosh and Bimal K. Bachhawat

5. Receptor-Mediated Protection of Normal Hepatocytes During Chemotherapy for Hepatocellular Carcinoma 105
   Valerie Keegan-Rogers, Catherine H. Wu, and George Y. Wu

6. Targeted Delivery and Expression of Foreign Genes in Hepatocytes 127
   George Y. Wu and Catherine H. Wu

7. Asialoglycoproteins as Radiodiagnostic Agents for Detection of Hepatic Masses and Evaluation of Liver Function 151
   Walid F. Makdisi and Mark R. Versland

xi
8. Contrast Agents for Magnetic Resonance Imaging of the Liver
   Lee Josephson, Ernest Groman, and Ralph Weissleder

9. Effect of Ethanol on Asialoglycoprotein Receptor Function
   Carol A. Casey, Michael F. Sorrell, and Dean J. Tuma

10. Mechanism and Clinical Relevance of Elevated Levels of
    Circulating Asialoglycoproteins
    Takaya Sawamura and Yasuko Shiozaki

11. Limitations on the Specificity of Targeting Asialoglycoprotein–Drug
    Conjugates to Hepatocytes
    Peter van der Sluijs and Dirk K. F. Meijer

II. Alternative Potentially Hepatoselective Receptors

12. Trafficking of the Transferrin Receptor
    Willem Stoorvogel, Ger J. Strous, Aaron Ciechanover, and
    Alan L. Schwartz

13. Mechanism and Clinical Significance of Soluble Hepatic Cell-Surface
    Receptors
    Yutaka Kohgo, Hitoshi Kondo, Yoshihiro Mogi, and Yoshiro Niitsu

14. Receptor-Mediated Radiopharmaceutical Imaging of the Liver
    Richard P. Spencer

15. Ferritin Receptors and the Role of Ferritin in Iron Transport
    Philip Aisen

Index
