ADVANCES IN
BIOMEDICAL ALCOHOL RESEARCH

Third Congress of the International Society for
Biomedical Research on Alcoholism
Helsinki, Finland
8–13 June 1986

Edited by
K. O. LINDROS, R. YLIKAHRI and K. KIIANMAA

Published as Supplement No. 1 (1987) to the
cJournal Alcohol and Alcoholism

PERGAMON PRESS
Oxford • New York
Beijing • Frankfurt • São Paulo • Sydney • Tokyo • Toronto
CONTENTS

Preface vii

INVITED LECTURES

H. Kalant
Current trends in biomedical research on alcohol 1

Alcohol and aldehyde dehydrogenases: structures of the human liver enzymes, functional properties and evolutionary aspects 13

S. Siegel
Pavlovian conditioning and ethanol tolerance 25

P.L. Carlen and D.A. Wilkinson
Alcohol-induced brain damage: confounding variables 37

M.A. Schuckit, E.O. Gold and S.C. Risch
The search for hormonal markers of the risk for alcoholism 43

H.W. Goedde and D.P. Agarwal
Aldehyde dehydrogenase polymorphism: molecular basis and phenotypic relationship to alcohol sensitivity 47

M. Bohman, S. Sigvardsson, R. Cloninger and A-L von Knorring
Alcoholism: lessons from population, family and adoption studies 55

D.J. Tuma and M.F. Sorrell
Functional consequences of acetaldehyde binding to proteins 61

A. Müller and H. Sies
Alcohol, aldehydes and lipid peroxidation: current notions 67

R. Nordmann
Oxidative stress from alcohol in the brain 75

A.R. Fosso
Ethanol and hepatic protein turnover 83

T.-K. Li, L. Lumeng, W.J. McBride and J.M. Murphy
Rodent lines selected for factors affecting alcohol consumption 91

Alcohol intoxication in humans: effects on vigilance performance 97

J.C. Crabbe
Genetic models of alcohol dependence 103
J. Ellingboe
Acute effects of ethanol on sex hormones in non-alcoholic men and women 109

A.L. Klatsky
The cardiovascular effects of alcohol 117

C.L. Randall
Alcohol as a teratogen: a decade of research in review 125

R.A. Deitrich
Specificity of the action of ethanol in the central nervous system: behavioral effects 133

N.P. Franks and W.R. Lieb
Are the biological effects of ethanol due to primary interactions with lipids or with proteins? 139

R.B. Holman
Specificity of ethanol's action in the CNS: neurotransmitters and neuromodulators 147

cDNA structures of class I human liver alcohol dehydrogenases 151

L.S. Patterson, K. Zhang, H.J. Edenberg and W.P. Bosron
Genetic control of liver alcohol dehydrogenase expression in inbred mice 157

ALCOHOL AND ALDEHYDE DEHYDROGENASE

Human mitochondrial aldehyde dehydrogenase: mRNA expression in different tissues using a specific probe isolated from a cDNA expression library 161

D.W. Crabb and H.J. Edenberg
Cloning and sequencing of a cDNA encoding rat liver alcohol dehydrogenase 167

P. Juliá, M.D. Boleda, J. Farrés and X. Parés
Mammalian alcohol dehydrogenase: characteristics of class III isoenzymes 169

R. Pietruszko, M.T. Ryzlak and C.M. Forte-McRobbie
Multiplicity and identity of human aldehyde dehydrogenases 175

Y. Pocker, H. Li and J.D. Page
Liver alcohol dehydrogenase: metabolic and energetic aspects 181

H. Weiner, M. McMichael, E. Lindahl-Hellstrom and G.C. Tu
Use of polyclonal antibodies to study properties of mammalian aldehyde dehydrogenases 187

A. Helander and O. Tottmar
Metabolism of biogenic aldehydes in human blood: effects of ethanol, acetaldehyde and disulfiram 193

R.S. Holmes, R.A. Popp and J.L. VandeBerg
Genetics of stomach and ocular alcohol dehydrogenase and aldehyde dehydrogenase in the mouse 199

ETHANOL AND ACETALDEHYDE OXIDATION

E. Baracca, C. DiPadova, J. Tabasco and C.S. Lieber
Transport of acetaldehyde in red blood cells 203

H. Rouach, M.K. Park, M.T. Orfanelli, B. Janvier and R. Nordmann
Ethanol - induced oxidative stress in the rat cerebellum 207

A.W. Jones, J. Neiman and M. Hillbom
Elimination kinetics of ethanol and acetaldehyde in healthy men during the calcium carbimide - alcohol flush reaction 213
CONTENTS

F.N. Shirota, E.G. DeMaster, C.-H. Kwon and H.T. Nagasawa
Metabolism of cyanamide to cyanide and an inhibitor of aldehyde dehydrogenase (ALDH) by rat liver microsomes 219

MICROSOMAL METABOLISM

J.A. Handler and R.G. Thurman
Fatty acids supply H₂O₂ at high rates for the oxidation of ethanol by catalase 225

S. Kato, J. Alderman and C.S. Lieber
Ethanol metabolism in alcohol dehydrogenase deficient deer mice is mediated by the microsomal ethanol oxidizing system, not by catalase 231

Y. Kera, H. Speisky, K.E. Penttilä, H. Sippel and K.O. Lindros
Glutathione metabolism in isolated rat hepatocytes: acinar heterogeneity of detoxifying enzymes and effects of ethanol 235

C. Ribiere, D. Sabourault, C. Saffar and R. Nordmann
Mitochondrial generation of superoxide free radicals during acute ethanol intoxication in the rat 241

H. Speisky, A. Gunasekara, G. Varghese and Y. Israel
Basolateral gamma-glutamyl transferase ectoactivity in rat liver: effects of chronic alcohol consumption 245

N.W. Cornell, J.F. Sinclair, J.J. Stegeman and C. Hansch
Pyrazoles as effectors of ethanol oxidizing enzymes and inducers of cytochrome P450 251

INTERMEDIARY METABOLISM AND CHRONIC EFFECTS

N. Grunnet, J. Kondrup and J. Dich
Ethanol-induced accumulation of triacylglycerol in cultured hepatocytes: dependency on ethanol metabolism 257

J.E. Roepke and D.W. Crabb
Loss of sexual differentiation of rat hepatocytes in short-term culture 263

T. Cronholm
Ethanol-acetaldehyde exchange in vivo and in isolated hepatocytes 265

J. Dich, C. Vind and N. Grunnet
Long-term culture of hepatocytes: ethanol oxidation and effect of ethanol on enzyme activities 271

C. Guerri, M. Sancho-Tello, J. Renau-Piqueras and R. Báguesa
Effect of pre- and postnatal exposure to ethanol on periportal and periportal neonatal rat hepatocytes 277

Interaction of ethanol with blood proteins 283

P.R. Ryle, J. Chakraborty and A.D. Thomson
Effects of cysteine and antioxidants on the hepatic redox-state, acetaldehyde and triglyceride levels after acute ethanol dosing 289

C. Vind and N. Grunnet
Rate determining factors of ethanol oxidation in hepatocytes from starved and fed rats: effect of acetaldehyde concentration on the rate of NADH oxidation catalyzed by alcohol dehydrogenase 295

D.M. Connelly, I. Nercurkar and P.V. Taberner
Effects of chronic ethanol treatment on glucose uptake into tissues of normal and diabetic mice 301
