Contents Vol. 35, Supplement 1, 1988

vi  List of Contributors
viii Foreword
1-3 Introductory Lecture
   J.P. Famaey

Section 1: Experimental Findings

4-8  Reduction of Prostaglandin E2 Concentrations in Synovial Fluid of Patients Suffering from Rheumatoid Arthritis Following Tiaprofenic Acid or Indomethacin Treatment
   T.J. Daymond and F.J. Rowell

9-14  Plasminogen Activators and Tiaprofenic Acid in Inflammation: A Preliminary Study
   Gabriella Fibbi, Umberto Serni, Marco Pucci, Riccardo Caldini, Lucia Magnelli and Mario Del Rosso

15-23  Effects of Tiaprofenic Acid and Other NSAIDs on Proteoglycan Metabolism in Articular Cartilage Explants
   H. Muir, S.L. Carney and L.G. Hall

24-32  Effects of NSAIDs on the Metabolism of Sulphated Glycosaminoglycans in Healthy and (Post) Arthritic Murine Articular Cartilage
   Bernard J. de Vries, Wim B. van den Berg, Elly Vitters and Levinus B.A. van de Putte

33-41  Effects of Interleukin-1 and Anti-Inflammatory Drugs on the Degradation of Human Articular Cartilage
   M. Shinmei, T. Kikuchi, K. Masuda and Y. Shimomura

Short Communication

42-45  In Vitro Effects of Tiaprofenic Acid, Sodium Salicylate and Hydrocortisone on Human Osteoarthritic Cartilage Degradation and Synovial Collagenase Synthesis
   J.-P. Pelletier and J. Martel-Pelletier
Section 2: Pharmacokinetics

46-51 Synovial Fluid and Plasma Kinetics of Repeat Dose Sustained Action Tiaprofenic Acid in Patients with Rheumatoid Arthritis
F.E. Nichol, A. Samanta and C.M. Rose

Short Communications

52 Pharmacokinetics of Sustained Action Tiaprofenic Acid in Elderly Arthritic Patients
G.A.C. Hosie and J. Hosie

53-56 Pharmacokinetics of Tiaprofenic Acid in Elderly Multimorbid Patients
D. Platt, H. Eicher, W. Rieck and D. Hilgert

Section 3: Clinical Studies

57-63 Multicentre Double-Blind Comparison of Sustained Action Formulations of Tiaprofenic Acid and Indomethacin in Osteoarthritis

64-67 Comparative Double-Blind Study of Tiaprofenic Acid versus Piroxicam in the Treatment of Osteoarthritis of the Knee
A. Maccagno, O. Sebastian and E. Di Giorgio

68-71 The Effect of Tiaprofenic Acid on Uric Acid Excretion in Man
L. Sinigaglia, S. Zeni, F. Solazzi, G. Di Minno and S. Longatti

72-80 Clinical Experiences with the Intramuscular Injection of Tiaprofenic Acid in Rheumatic Diseases, with Particular Emphasis on Time of Onset and Duration of the Analgesic Effect
Gabor Katona and Rubén Burgos-Vargas

Short Communications

81-83 Efficacy and Tolerability of an Injectable Formulation of Tiaprofenic Acid in Patients with Acute Back and Neck Pain
R. Scarpa, P. Oriente and S. Longatti

83-85 Comparative Clinical Trial of Two Injectable NSAIDs, Tiaprofenic Acid and Alclofenac, in Acute Sciatica
Y. Schuermans and A. Rauis
85-87 Comparison of Injectable Formulations of Tiaprofenic Acid and Ketoprofen in Acute Lumbar Sciatica: Single Blind Randomised Trial
T. Borms

87-89 Relative Efficacy and Tolerance of Tiaprofenic Acid and Ketoprofen in Rheumatoid Arthritis
G. Valentini, G. Tirri and S. Longatti

Section 4: Tolerance Studies

90-94 Comparison of Gastrointestinal Blood Loss in Healthy Male Volunteers During Repeated Administration of Standard and Sustained Action Tiaprofenic Acid and Sustained Release Indomethacin
S.J. Warrington, J. Dana-Haeri, M.A. Horton and E.J. Thornton

95-100 Is Tiaprofenic Acid Different From Other NSAIDs With Regard to Effects on Renal Function in the Elderly?
Tadao Ishioka

101-106 Efficacy and Tolerance of Tiaprofenic Acid During Long Term Administration to Rheumatoid Arthritis Patients
T. Nagaya, S. Niwa, S. Harada and Y. Konishi

107-110 Tolerability of Tiaprofenic Acid in Patients with Glucose-6-Phosphate Dehydrogenase (G6PD) Deficiency
Q. Mela, G. Perpignano, V. Ruggiero and S. Longatti

111 Closing Remarks: The NSAID 'Race'
E.C. Huskisson
