Symposium on Roxatidine Acetate

Proceedings of a symposium sponsored by Hoechst AG held in Rottach-Egern on 3-5 June, 1987

Guest Editors
S. Bonfils
M. Classen
M.J.S. Langman

Technical Editor
John P. Gonzalez

Drugs

Contents Vol. 35, Supplement 3, 1988

vi-vii List of Contributors

viii Introduction

Section 1: Clinical Considerations

1-9 Prostaglandins, H2-Receptor Antagonists and Peptic Ulcer Disease
P. Bright-Asare, T. Habte, B. Yirgou and J. Benjamin

10-16 The Significance of Gastrin in the Pathogenesis and Therapy of Peptic Ulcer Disease
C.B.H.W. Lamers

17-19 Antisecretory Drugs: Safe and Effective?
M.J.S. Langman

20-24 The Use of Roxatidine Acetate in Fasting Patients Prior to Induction of Anaesthesia as
Prophylaxis against the Acid Aspiration Syndrome
M. Tryba, G. Wruck, H. Thole and M. Zenz

Section 2: Animal Pharmacology of Roxatidine Acetate

25-29 Comparative Pharmacology of Histamine H2-Receptor Antagonists
K.-Fr. Sewing, W. Beil and H. Hannemann

30-40 A Review of the Animal Pharmacology of Roxatidine Acetate
J. Scholtholt, M. Bickel and A.W. Herling

Section 3: Clinical Pharmacology of Roxatidine Acetate

41-47 Pharmacokinetics of Roxatidine in Healthy Volunteers
J.D. Collins and A.W. Pidgen

48-52 A Pharmacokinetic Study of Roxatidine Acetate in Chronic Renal Failure
N. Lameire, B. Rosenkranz, L. Maass and D. Brockmeier

53-64 The Pharmacodynamics and Pharmacokinetics of Multiple Doses of the New H2-Receptor
Antagonist, Roxatidine Acetate, in Healthy Men
H.B. Lassman, I. Ho, S.K. Puri, R. Sabo and M.R. Scheffler
65-68 Effect of Roxatidine Acetate on Daytime and Night-Time Peptone-Stimulated Gastric Acid Secretion  
F. Hagenmüller

69-75 The Effects of Roxatidine Acetate on 24-Hour Intragastric Acidity: Investigations in Healthy Volunteers and Comparison with Ranitidine and Placebo  

76-81 Effects of Roxatidine Acetate on 24-Hour Gastric Acidity: Early Evening Versus Bedtime Administration in Healthy Subjects  
P. Hemery, P. Congard, J.-P. Galmiche and S. Bonfils

82-89 Interaction of Roxatidine Acetate with Antacids, Food and Other Drugs  
R.A. Labs

Section 4: Roxatidine Acetate in Duodenal Ulcer

90-95 A Comparison of Roxatidine Acetate and Ranitidine in Duodenal Ulcer Healing  
W. Hüttemann

96-101 A Comparison of Roxatidine Acetate 150mg Once Daily and 75mg Twice Daily in Duodenal Ulcer Healing  
E. Hentschel, K. Schütze and the International Cooperative Roxatidine Study Group

102-105 Roxatidine Acetate in the Long Term Maintenance of Duodenal Ulcers  
G. Brunner

106-113 Optimal Reduction of Gastric Acid Secretion in the Treatment of Peptic Ulceration  
H.G. Dammann, M. Dreyer, R. Kangah, P. Müller and B. Simon

114-119 Clinical Studies on the Use of Roxatidine Acetate for the Treatment of Peptic Ulcer in Japan  
M. Inoue

Section 5: Roxatidine Acetate in Gastric Ulcer

120-126 A Comparison of Roxatidine Acetate and Ranitidine in Gastric Ulcer Healing  
G. Judmaier

127-133 A Comparison of Roxatidine Acetate 150mg Once Daily and 75mg Twice Daily in Gastric Ulcer Healing  
W. Rösch
Contents

134-138 Roxatidine Acetate in the Long Term Maintenance of Gastric Ulcers
   G. Bösch

139 Closing Remarks
   M. Classen

140-141 Appendix 1: Therapeutic Resistance of Peptic Ulcers

141-142 Appendix 2
