Trazodone: An Antidepressant with Adrenolytic Activity

This supplement is based on a symposium to the Collegium Internationale Neuro-Psychopharmacologicum 16th C.I.N.P. Congress Held in Munich, F.R.G. August 15, 1988

Sponsored by Angelini, Italy

GUEST EDITORS

Professor C. Cazzullo
Department of Psychiatry
Medical School
University of Milan
Milan, Italy

Professor B. Silvestrini
Institute of Pharmacology and Pharmacognosy
University of Rome "La Sapienza"
Rome, Italy

Raven Press New York
Clinical Neuropharmacology
A JOURNAL OF REVIEWS AND ORIGINAL INVESTIGATIONS IN THE PHARMACOLOGY OF CENTRAL NERVOUS SYSTEM DYSFUNCTION

VOLUME 12, SUPPLEMENT 1, 1989

CONTENTS

iv Introduction
H. Hippius

S1 New Treatment for Anxious Depression Syndrome
C. L. Cazzullo

S4 Trazodone: From the Mental Pain to the “Dys-Stress” Hypothesis of Depression
B. Silvestrini

S11 United States Experience and Perspectives with Trazodone
L. F. Fabre

S18 Experimental Examination of Trazodone
E. Kieser and E. Lehmann

S25 Clinical Activity and Tolerability of Trazodone, Mianserin, and Amitriptyline in Elderly Subjects with Major Depression: A Controlled Multicenter Trial

(continued on next page)
CONTENTS

S34 Discussion

S38 Treatment of Bulimia Nervosa with Trazodone: Short-Term Response and Long-Term Follow-Up

S47 Discussion

S50 A Comparative Study of Conventional and Controlled-Release Formulations of Trazodone in Elderly Depressed Patients

S56 Discussion

S58 Concluding Remarks
B. Silvestrini

Publisher's Note
The opinions expressed in this presentation are those of the panelists and are not attributable to the sponsor or the publisher, editor, or editorial board of Clinical Neuropharmacology. Clinical judgment must guide each physician in weighing the benefits of treatment against the risk of toxicity. References made in the articles may indicate uses of drugs at dosages, for periods of time, and in combinations not included in the current prescribing information.
