CONTENTS

Topical Delivery of Antiviral Agents: In Vivo/In Vitro Correlations .......................... W.I. Higuchi, W.M. Shannon, J.L. Fox, G.L. Flynn, N.F.H. Ho, R. Vaidyanathan, and D.C. Baker 1

Biological Evaluation of Soluble Synthetic Polymers as Drug Carriers .................. R. Duncan and J.B. Lloyd 9

Tissue Responses to Drug Delivery Systems ......................................................... J.M. Anderson and R.E. Marchant 23

Synthesis of Tailor-Made Soluble Polymeric Drug Carriers ................................. J. Kopeček 41

New Oligomers and Polymers as Drug Carriers .................................................. P. Ferruti, A.S. Angeloni, G. Scapini and M.C. Tarisi 63

Zero Order Drug Release from Bioerodible Polymers ........................................ J. Heller 101

Antithrombotic Agent Releasing Polymers ......................................................... J.C. McRea, C.D. Ebert, J. Lin, S.W. Kim 137
Polymer Coated Liposomes for Drug Delivery to Target Specific Organs .......... 153
J. Sunamoto, K. Iwamoto, M. Takada, T. Yuzuriha, and K. Katayama

Alternative Approaches to Oral Controlled Drug Delivery: Bioadhesives and In-Situ Systems .......... 163
K. Park, H.S. Ch'ng, and J.R. Robinson

Development of Encapsulated Antibiotics for Topical Administration to Wounds .......... 185
J.A. Setterstrom, T.R. Tice, and W.E. Myers

Albumin Microspheres for Intraarterial Drug Targeting .......... 199
E. Tomlinson, J.J. Burger, J.G. McVie, and K. Hoefnagel

A Bioresponsive Membrane for Insulin Delivery .......... 209
T.A. Horbett, B.D. Ratner, J. Kost, and M. Singh

Magnetic Microspheres in Drug Delivery .......... 221

Drug Release from Matrix Devices .......... 229
J. R. Cardinal

Controlled Release and Magnetically Modulated Systems for Macromolecules: Recent Advances .......... 249
R. Langer, L. Brown, and E. Edelman

Hydrogel Drug Delivery Systems Physical and Ionogenic Drug Carriers .......... 259
E.H. Schacht

Release of Bioactive Agents from Swellable Polymers: Theory and Experiments .......... 279
N.A. Peppas

S. Büyükyaylacı, Y.M. Joshi, G.E. Peck, and G.S. Banker

Transdermal Drug Delivery from a Solid State Hydrophilic Reservoir System .......... 309
A.C. Hymes

Sintered Polymers for Sustained Macromolecular Drug Release .......... 315
R.A. Siegel, J.M. Cohen, L. Brown, and R. Langer
