PRENATAL ABUSE OF LICIT AND ILLICIT DRUGS

Edited by Donald E. Hutchings
CONTENTS

Preface. By DONALD E. HUTCHINGS.................................................. xi

Part I. History and Epidemiology
Perspectives on the Concern for and Management of Prenatal Chemical Exposure and Postnatal Effects. By CAROLE A. KIMMEL.......................................................... 1
Evolution of American Attitudes toward Substance Abuse. By DAVID F. MUSTO.......................................................... 3
Methodological Issues in the Measurement of Substance Use. By NANCY L. DAY AND NADINE ROBLES............................ 8
Epidemiology of Substance Abuse Including Alcohol and Cigarette Smoking. By EDGAR H. ADAMS, JOSEPH C. GFROERER, AND BEATRICE A. ROUSE............................... 14

Part II. Theoretical and Mechanistic Considerations
Pharmacological Concepts and Developmental Toxicology. By RICHARD G. SKALKO.................................................. 21
Concepts in Teratology and Developmental Toxicology Derived from Animal Research. By CHARLES V. VORHEES.......................... 31
Maternal-Fetal Pharmacokinetics and Fetal Dose-Response Relationships. By HAZEL H. SZETO........................................... 42
Pharmacogenetics of Drugs of Abuse. By LOUIS SHUSTER.................. 56

Part III. Cigarette Smoking

The papers in this volume were presented at a conference entitled Prenatal Abuse of Licit and Illicit Drugs, which was held by the Behavioral Teratology Society, the National Institute on Drug Abuse (National Institutes of Health), and the New York Academy of Sciences in Bethesda, Maryland on September 7-9, 1988.
Mothers Who Smoke and the Lungs of Their Offspring. By ADRIEN C. MOESSINGER ................................................................. 101
Developmental Neurotoxicity of Nicotine, Carbon Monoxide, and Other Tobacco Smoke Constituents. By CHARLES F. MACTUTUS ................................................................. 105

Part IV. Marijuana and Delta-9-Tetrahydrocannabinol
Postnatal Consequences of Maternal Marijuana Use in Humans. By PETER A. FRIED ................................................................. 123
Animal Studies of Prenatal Delta-9-Tetrahydrocannabinol: Female Embryolethality and Effects on Somatic and Brain Growth. By DONALD E. HUTCHINGS, STEPHEN C. BRAKE, AND BRIAN MORGAN ................................................................. 133

Part V. Alcohol
Neurobehavioral Dose-Response Effects of Prenatal Alcohol Exposure in Humans from Infancy to Adulthood. By ANN P. STREISSGUTH, PAUL D. SAMPSON, AND HELEN M. BARR ................................................................. 145
Alcohol-Related Birth Defects: Assessing the Risk. By CLAIRE B. ERNHART, ROBERT J. SOKOL, JOEL W. AGER, MARY MORROW-TLUCAK, AND SUSAN MARTIER ................................................................. 159
The Behavioral and Neuroanatomical Effects of Prenatal Alcohol Exposure in Animals. By EDWARD P. RILEY AND SUSAN BARRON ................................................................. 173
Role of Prostaglandins in Alcohol Teratogenesis. By CARRIE L. RANDALL, RAYMOND F. ANTON, HOWARD C. BECKER, AND NANCY M. WHITE ................................................................. 178

Part VI. Opioids
Clinical Studies of Infants and Children Exposed Prenatally to Heroin. By GERALDINE S. WILSON ................................................................. 183
Developmental Consequences of Prenatal Exposure to Methadone. By SYDNEY L. HANS ................................................................. 195

Part VII. Drug Use and Women: Treatment, Ethical Issues, and Government Policy
Drug Use and Women: Establishing a Standard of Care. By IRA J. CHASNOFF ................................................................. 208
Neuroendocrine Consequences of Alcohol Abuse in Women. By NANCY K. MELLO, JACK H. MENDELSON, AND SIEW KOON TEOH ................................................................. 211
Maternal AIDS: Effects on Mother and Infant. By KENNETH C. RICH................................................................. 241
Maternal-Fetal Conflicts: Ethical and Legal Considerations. By NORMAN FOST .................................................. 248
Public Health Policy: Maternal Substance Use and Child Health. By ERNESTINE VANDERVEEN ......................... 255

Part VIII. Cocaine, Amphetamine, Phencyclidine, and Caffeine

Cocaine: Clinical Studies of Pregnancy and the Newborn. By IRA J. CHASNOFF AND DAN R. GRIFFITH ......................... 260
Prenatal Cocaine Exposure to the Fetus: A Sheep Model for Cardiovascular Evaluation. By JAMES R. WOODS, JR., MARK A. PLESSINGER, KIMBERLY SCOTT, AND RICHARD K. MILLER 267
Long-Term Neurochemical and Neurobehavioral Consequences of Cocaine Use during Pregnancy. By DIANA L. DOW-EDWARDS 280
Cocaine Effects on the Developing Central Nervous System: Behavioral, Psychopharmacological, and Neurochemical Studies. By LINDA PATIA SPEAR, CHERYL L. KIRSTEIN, AND NANCY A. FRAMBES......................................................... 290
Prenatal Amphetamine Effects on Behavior: Possible Mediation by Brain Monoamines. By LAWRENCE D. MIDD&AUuml;DAGH ........................................... 308
Phencyclidine during Pregnancy: Behavioral and Neurochemical Effects in the Offspring. By THERESA A. FICO AND CHRISTINA VANDERWENDE........................................... 319
Neurobehavioral Effects of Prenatal Caffeine. By THOMAS J. SOBOTKA ............................................................... 327

Poster Papers

Behavioral Teratogenic Effects of Ethanol in Mice. By HOWARD C. BECKER, CARRIE L. RANDALL, AND LAWRENCE D. MIDD&AUuml;DAGH................................................................. 340
Focusing Prevention of Fetal Alcohol Syndrome on Women at Risk. By B. MORSE, L. WEINER, AND P. GARRIDO .................. 342
Effects of In-Utero Cocaine Exposure on Sensorineural Reactivity. By MICHELLE E. COHEN, ENDLA K. ANDAY, AND DONALD S. LEITNER ................................................................. 344
Abnormal Hypoxic Arousal Responses in Infants of Cocaine-Abusing Mothers. By SALLY L. DAVIDSON WARD, DAISY B. BAUTISTA, SALLY SCHUETZ, LAURA WACHSMAN, XYLINA BEAN, AND THOMAS G. KEENS .......................... 347
Circulating Catecholamines and Adrenoreceptors in Infants of Cocaine-Abusing Mothers. By SALLY L. DAVIDSON WARD, DAISY B. BAUTISTA, SUE BUCKLEY, SALLY SCHUETZ, LAURA WACHSMAN, XYLINA BEAN, AND DAVID WARBURTON ........... 349

Prenatal Exposure to Drugs and Its Influence on Attachment. By CAROL RODNING, LEILA BECKWITH, AND JUDY HOWARD .... 352

Cocaine and Pregnancy: Maternal and Infant Outcome. By SUSAN LIVESAY, SAUNDRA EHRLICH, LYNN RYAN, AND LORETTA P. FINNEGAN.............................................. 358

Children Exposed to Methadone in Utero: Assessment of Developmental and Cognitive Ability. By KAROL KALTENBACH AND LORETTA P. FINNEGAN............................. 360

Women at Risk for AIDS and the Effect of Educational Efforts. By C. ARENSON AND L. FINNEGAN ................................................................. 363

Maternal Cigarette Smoking Depresses Placental Amino Acid Transport, Which May Lower the Birthweight of Infants. By B. V. RAMA SASTRY, V. E. JANSON, M. AHMED, J. KNOTS, AND J. S. SCHINFELD ........................................... 367

A New Method for the Rapid Isolation and Detection of Drugs in the Stools (Meconium) of Drug-Dependent Infants. By ENRIQUE M. OSTREA, JR., PATRICIA PARKS, AND MARK BRADY................................................................. 372

The Detection of Heroin, Cocaine, and Cannabinoid Metabolites in Meconium of Infants of Drug-Dependent Mothers: Clinical Significance. By ENRIQUE M. OSTREA, JR., PATRICIA PARKS, AND MARK BRADY................................................................. 373

The Perinatal Clinical Profile of HIV Infection in the Pregnant Addict. By ENRIQUE M. OSTREA, JR., ANNA L. RAYMUNDO, AND FLOSSIE COHEN ..................................................... 375

Has Cocaine Abuse Increased Perinatal Morbidity in Maternal Drug Addiction? By ENRIQUE M. OSTREA, JR. AND ANNA L. RAYMUNDO ................................................................. 376

Developmental, Behavioral, and Structural Effects of Prenatal Opiate Receptor Blockade. By NANCY A. SHEPANEK, ROBERT F. SMITH, ZITA TYER, DAWN ROYALL, AND KAREN ALLEN... 377
Attentional Impairment in Rats Exposed to Alcohol Prenatally: Lack of Hypothesized Masking by Food Deprivation. By B. J. Strupp, J. Korais, D. A. Levitsky, and S. Ginsberg... 380

Index of Contributors................................................................. 387

Major funding was provided by:

- NATIONAL INSTITUTE ON DRUG ABUSE/NATIONAL INSTITUTES OF HEALTH

Financial assistance was also received from:

- BEHAVIORAL TERATOLOGY SOCIETY
- E. I. DU PONT DE NEMOURS & COMPANY
- SCHERING LABORATORIES
- E. R. SQUIBB & SONS

The New York Academy of Sciences believes it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the participants in the reported conferences are their own and not necessarily those of the Academy. The Academy has no intent to influence legislation by providing such forums.
