Neurochemical Correlates of Affective Disorders and their Treatment.

A Satellite Symposium affiliated to the XVIth C.I.N.P. Congress

Copenhagen, August 21 - 24, 1988

Department of Pharmacology,
University of Copenhagen, Denmark

Edited by
Arne Geisler, Arne Mørk and René Klysner
# CONTENTS

## Preface

## Invited lectures

**EMRICH, H.M. & R. WOLF:** Recent neurochemical and pharmacological aspects of pathogenesis and therapy of affective psychoses. 5

**PANDEY, G.N., S.C. PANDEY & J.M. DAVIS:** Peripheral adrenergic receptors in affective illness and schizophrenia. 13

**MANN, J.J., V. ARANGO, M.D. UNDERWOOD, F. BAIRD & P.A. MCBRIDE:** Neurochemical correlates of suicidal behavior: Involvement of serotonergic and non-serotonergic systems. 37

**LINGJÆRDE, O.:** Blood platelets as a model system for studying serotonergic dysfunction and effects of antidepressants. 61

**RICHELSON, E.:** The use of cultured cells in the study of mood-normalizing drugs. 69

**BELMAKER, R.H., A. LIVNE, G. AGAM, D.G. MOSCOVICH, N. GRISARU, G. SCHREIBER, S. AVISSAR, A. DANON & O. KOFMAN:** Role of inositol-1-phosphatase inhibition in the mechanism of action of lithium. 76

**MELTZER, H.L.:** Mode of action of lithium in affective disorders. An influence on intracellular calcium functions. 84

**JANOWSKY, D.S. & D.H. OVERSTREET:** Cholinergic dysfunction in depression. 100

**BRUNELLO, N., J. PÉREZ, D. TINELLI, A.C. ROVESCALLI & G. RACAGNI:** Biochemical and molecular changes in rat cerebral cortex after chronic antidepressant treatment: "in vitro" and "in vivo" studies. 112

**WALDMEIER, P.C.:** Mechanisms of action of lithium in affective disorders: A status report. 121

**GJERRIS, A.:** Studies on cerebrospinal fluid in affective disorders. 133

**SMITH, D.F.:** Strategies in behavioral research on affective disorders: Principles, problems and pitfalls. 139

**RICHELSON, E.:** Closing lecture 144

Abstracts for oral and poster presentation 149
