GAMETE INTERACTION

Prospects for Immunocontraception

EDITORS

NANCY J. ALEXANDER
Contraceptive Research and Development Program
Eastern Virginia Medical School
Norfolk, Virginia

DAVID GRIFFIN
World Health Organization
Geneva, Switzerland

JEFFREY M. SPIELER
Office of Population
Agency for International Development
Washington, D.C.

GEOFFREY M.H. WAITES
World Health Organization
Geneva, Switzerland

WILEY-LISS
A JOHN WILEY & SONS, INC., PUBLICATION
New York • Chichester • Brisbane • Toronto • Singapore
PART I: SPERM ANTIGENS

1. Defining Sperm Surface Domains
Diana G. Myles, Dennis E. Koppel, and Paul Primakoff

DISCUSSION

2. Monoclonal Antibody MHS-10 and Its Cognate Intra-Acrosomal Antigen SP-10
John C. Herr, Richard M. Wright, Edward John, Kenneth Klotz, Mona Homyk, James Foster, and Charles J. Flickinger

DISCUSSION

3. Studies of Sperm Antigens Reactive to HS-11 and HS-63 Monoclonal Antibodies
Chi-Yu Gregory Lee, Ming-Sun Liu, Ming-Wan Su, and Jia-Bei Zhu

DISCUSSION

4. Morphological Development and Function of the Mammalian Sperm Acrosome Explored With 18.6 Monoclonal Antibody
Harry D.M. Moore, Caroline A. Smith, and Alison Moore

DISCUSSION

5. Lactate Dehydrogenase C4 as an Immunocontraceptive Model
Erwin Goldberg

DISCUSSION
6. Sperm Antigens Defined From Polyclonal Antisera
Chandrima Shaha, T. Sheshadri, G.P. Talwar,
and Anil Suri .................................................. 75
DISCUSSION
7. Progress Toward a Birth Control Vaccine That Blocks
Sperm Function
Paul Primakoff and Diana G. Myles ....................... 89
DISCUSSION
8. World Health Organization Sperm Antigen Workshops and
Sperm Antigen Nomenclature Project
Deborah J. Anderson ........................................... 103
GENERAL DISCUSSION ........................................ 107

PART II: EPIDIDYMAL AND SEMINAL
PLASMA-RELATED LEADS

9. Sperm Biochemical Changes During Epididymal
Maturation
J.L. Dacheux, C. Chevrier, F. Dacheux, C. Jeulin,
J.L. Gatti, C. Pariset, and M. Paquignon ................. 111
DISCUSSION
10. Changes in Sperm-Specific Antigens During
Epididymal Maturation
Mónica S. Cameo, Adriana Dawidowski, Claudia Sanjurjo,
Fernanda Gonzalez Echeverria, and Jorge A. Blaquier .... 129
DISCUSSION
11. Potential Contraceptive Use of an Epididymal Protein That
Participates in Fertilization
Patricia S. Cuasniciu, Daniela Conesa, and
Leonora Rochwerger ........................................... 143
DISCUSSION
12. Coating Antigens of Human Seminal Plasma
Involved in Fertilization
Shinzo Isojima, Yoshiyuki Tsuji, Kinu Kameda,
Minoru Shigeta, and Sen-itiroh Hakomori ................ 155
DISCUSSION
13. Immunologic Cytokines and Reproduction
Deborah J. Anderson ........................................... 175
DISCUSSION
PART III: SPERM–ZONA INTERACTION

14. Role of Acrosin and Antibodies to Acrosin in Gamete Interactions
   A.E. De Ioannes, M.I. Becker, C. Pérez, C. Capote, and C. Barros .......................... 185
   DISCUSSION

15. Sperm Acrosin and Binding to the Zona Pellucida
   E. Töpfer-Petersen, A.E. Friess, A. Henschen, D. Cechova, and M. Steinberger ............. 197
   DISCUSSION

16. Receptors for Zona Pellucida on Human Spermatozoa
   M.G. O’Rand, E.E. Widgren, B.S. Nikolajczyk, R.T. Richardson, and R.B. Shabanowitz ........ 213
   DISCUSSION

17. Regulation of Acrosomal Exocytosis by Sperm Binding to the Zona Pellucida
   L. Leyton, D. Bunch, P. Le Guen, M. Selub, and P. Saling ........................................... 225
   DISCUSSION

18. Fertilization: Changes in Sperm and Zona Carbohydrates
   Kamal K. Ahuja .............................................................. 239
   DISCUSSION

PART IV: ZONA PELLUCIDA ANTIGENS

19. Development and Maturation of the Zona Pellucida
   Anthony G. Sacco ............................................................... 259
   DISCUSSION

20. Glycosylation and Maturation of the Mammalian Zona Pellucida
   Therese M. Timmons, Sheri M. Skinner, and Bonnie S. Dunbar ...................................... 277
   DISCUSSION

21. Evaluation of Glycosylated and Deglycosylated Porcine Zona Antigens for Contraceptive Efficacy In Vivo and In Vitro
   R.J. Aitken, M. Paterson, P. Braude, and P. Thillai Koothan ........................................... 293
   DISCUSSION
22. Zona Pellucida: Target for a Contraceptive Vaccine  
Jurrien Dean and Sarah E. Millar .......................... 313  
DISCUSSION

GENERAL DISCUSSION ........................................ 327

PART V: ANTIBODIES AS ANALYTICAL TOOLS  
AND IMMUNOGENS

23. Studies With Clinically Defined Sera From Fertile and  
Infertile Patients: An Overview  
Tage Hjort .................................................... 333  
DISCUSSION

24. Characterization of Spermatozoa Antigens by Monoclonal  
and Polyclonal Antibodies  
Satish K. Gupta and Nancy J. Alexander .................... 345  
DISCUSSION

25. Development of Heterohybridomas to Define Human  
Sperm-Coating Antigens  
Shinzo Isojima, Kinu Kameda, Koji Koyama, Iglika Batova,  
and Yoshiyuki Tsuji ....................................... 359  
DISCUSSION

26. Development of Human–Human Antisperm  
Monoclonal Antibodies  
Maciej Kurpisz ............................................. 377

27. Anti-Idiotypic Antibodies as Immunizing Antigens  
for Immunocontraception  
Christopher P. Carron .................................... 401  
DISCUSSION

GENERAL DISCUSSION ........................................ 415

PART VI: THE USE OF MOLECULAR BIOLOGY FOR  
ANTIGEN PRODUCTION

28. Molecular Biological Approaches for Antigen Production  
William W. Chin ............................................. 419  
DISCUSSION

29. cDNA Cloning and Its Application to Cell Surface Proteins  
R.G. Sutcliffe, A.M. Hundal, D.A. Nickson, S. Zeinali,  
M. McBride, and S.-L. Wang ................................ 435  
DISCUSSION
PART VII: EVALUATING GAMETE ANTIGENS

30. Antisperm Assays
   Warren R. Jones  ............................................. 459
   DISCUSSION

31. Antifertilization Assays
   Sergio Oehninger, Nancy J. Alexander, Daniel R. Franken,
   Charles C. Coddington, Lani J. Burkman,
   Thinus F. Kruger, Anibal A. Acosta, and
   Gary D. Hodgen ............................................. 471
   DISCUSSION

32. Primate Models for Research in Reproduction
   M.A. Isahakia and C.S. Bambra  .............................. 487
   DISCUSSION

PART VIII: CONTRACEPTIVE VACCINE DEVELOPMENT

33. Strategy of Vaccine Development
   David Griffin ............................................. 501
   DISCUSSION

34. Immunoactivator Properties of RWJ 21757, a Substituted
    Guanosine With Adjuvant Activity
   D.W. Anderson and R.J. Capetola  .......................... 523
   DISCUSSION

35. Studies of Various Delivery Systems for a Human
    Chorionic Gonadotropin Vaccine
   V.C. Stevens, John E. Powell, Michael Rickey,
   Arthur C. Lee, and D.H. Lewis  ............................ 549
   DISCUSSION

36. Immunosafety Aspects of Fertility Control Vaccines
    G.L. Ada .................................................. 565

37. Experiences of the Anti-hCG Vaccine of Relevance to
    Development of Other Birth Control Vaccines
   DISCUSSION

38. Lessons From an Antihuman Chorionic Gonadotropin
    Contraceptive Vaccine Trial
   Warren R. Jones ........................................... 595
   DISCUSSION

PART IX: SUMMARY AND FUTURE DIRECTIONS

39. Lessons Learned and Future Needs
    N.A. Mitchison ........................................... 607
